# New Youth Center Building Update

Estimated opening: September 1, 2010

Issues that need resolving:

1. Contracts between the City, the Youth Center Building Committee and Don Wahlin need to be created or changed to reflect how the three entities will work together with the new building.

2. A rental agreement to be created that provides space for Community Living Connections to co-exist in the Youth Center Building. Rent would offset the budget for the Youth Center.

3. The Planning Department, Stoughton Schools and the Youth Center Construction Team have been working out phone, cable, and internet issues.

Proposal:

Joint meeting with Parks and Recreation Committee and Youth Center Building Committee begin discussions for moving the Youth center to the new facility.
