

Shanen Weber, PLA

ASLA Principal

- Member of Design Concepts since May 1994
Appointed Associate in 1999; Principal in 2009
- Bachelor of Landscape Architecture,
Colorado State University, 1988
- University of Northern Colorado, 1983-84
Registered Landscape Architect in Colorado (#503), 2008

Shanen takes a holistic approach to planning and design and is mindful of historic, cultural and ecological attributes of the landscape. Her specialties include parks, recreation and open space areas, educational campuses, and reservoirs. Enticing, challenging and encouraging interest in the outdoors and creating ways to investigate, explore and discover nature and its surroundings is indispensable to promoting a healthy lifestyle for all ages. She is also the expert in the office for planting design and plant selection appropriate for the Colorado Front Range. As a Project Manager, she has extensive experience with seeing projects through from the master plan phase to construction documents and administration, including cost estimation, specifications, and site observation. She has strong skills in preparing materials for and presenting at public meetings and is passionate about designing and building a project that becomes a source of pride in each community.
