

FREQUENTLY ASKED QUESTIONS

What is dry eye?

Dry eye occurs when we don't produce enough tears to keep our eyes healthy and comfortable. The symptoms include: itching, excessive watering, a feeling of burning in the eyes, increased sensitivity to light, wind, dry air or smoke. Dry eye makes reading, watching TV or computer work difficult and uncomfortable. Severe dry eye syndrome if left untreated can lead to blurry vision and loss of vision.

What causes dry eye?

- A dry, windy climate, smoke and air conditioning
- Aging, Menopause
- Diabetes, herpes zoster and auto immune diseases like lupus and rheumatoid arthritis
- Wearing contact lenses and eye surgery such as LASIK
- A wide variety of common medications:
 - Anti-anxiety medications
 - Antihistamine
 - Beta-blockers
 - Diuretics
 - Pain relievers
 - Sleeping pills

How common is dry eye?

It is estimated that 1 out of 5 American adults suffer from dry eye.

What is Ultra Dry Eye TG?

Ultra Dry Eye TG utilizes the most potent Omega-3 available in the natural triglyceride (TG) form to conveniently and effectively treat dry eye. Relief is usually felt in 4-6 weeks.

Who should use Ultra Dry Eye TG?

Ultra Dry Eye TG is very easy to take, just 3 softgels a day, and anyone with dry eye can take it. It is the only dry eye product that is also available in

mini softgels — enabling easy swallowing for those who struggle with standard softgels. *Easy to swallow half size Ultra Dry Eye TG*

I've tried to take fish oil but I couldn't stand the "fish burps".

How is Ultra Dry Eye TG different?

Ultra Dry Eye TG Omega-3 is in the TG form, — it absorbs directly through the stomach lining into the blood stream — this gives it superior bio-absorption and no fish burps guaranteed!

Is it true that some fish oils are an alcohol?

Yes. The majority of fish oils are an ethyl ester (EE) alcohol — which can only be absorbed through the liver. Due to this inefficient absorption EE fish oil loses 60% of it's potency in digestion and it causes the dreaded "fish burps".

How do I know that Ultra Dry Eye TG doesn't contain contaminants?

Ultra Dry Eye TG is independently tested and certified free of contaminants by lot by the International Fish Oil Standards (IFOS) body and the results are published.

“ My patients love the easy to swallow half-size Ultra Dry Eye TG and I typically see relief in 4-6 weeks. ”

R. Anthony Hutchinson, O.D., Encinitas, CA

Ultra Dry Eye Protocol Clinically proven to treat dry eye

■ Effective

- Apply the Dry Eye Compress for 3-5 minutes daily
- Clinically proven to improve tear layers
- Take just 3 Ultra Dry Eye TG softgels daily
- Clinically proven to treat dry eye in 8 weeks

Can't I just buy fish oil at the drugstore?

In 2011 nine name brand "drugstore" fish oils were found to contain levels of plasticizers (PCB's), a known carcinogen, that exceeded safe levels by up to 10 times according to the state of California.⁴

Additionally using "drugstore" fish oil would require at least 10 pills a day.

Who should use Ultra Dry Eye TG?

Ultra Dry Eye TG is very easy to take, just 3 softgels a day, and anyone with dry eye can take it. It is the only dry eye product that is also available in mini softgels — enabling easy swallowing for those who struggle with standard softgels.

How do I know that Ultra Dry Eye TG works?

A recent study showed 70% of patients using the TG form of Omega-3 were asymptomatic and 100% of patients reported improvement in 8 weeks.¹

Are there additional health benefits to taking Ultra Dry Eye TG?

Yes, in a recent study those that consumed the most Omega-3 decreased their risk of developing Macular Degeneration the leading cause of blindness by up to 33%.⁵

The NIH states that the consumption of Omega-3 safely reduces the risk of death from all causes.⁶ Additional benefits of Omega-3 include: skin, joint, and brain benefits.

3 Ultra Dry Eye TG softgels equal at least 10 "drugstore" fish oil capsules

DRY EYE COMPRESS— therapeutic moist heat in seconds!

What is the Dry Eye Compress?

The Dry Eye Compress is recommended by clinicians to provide deep penetrating moist heat therapy to treat: Meibomian Gland Dysfunction, Dry Eye Syndrome, TMJ, sinus pressure, tension and stress. It can also be frozen and applied cold to treat swollen, puffy eyes.

How do you use the Dry Eye Compress?

Just 30 seconds in the microwave delivers moist, therapeutic heat - with no mess. Wear for 3-5 minutes to improve tear layers and Meibomian Gland function - key contributors to chronic Dry Eye Syndrome.

Use HOT or Cold!

The Dry Eye Compress features Hydro Heat Technology™, which absorbs moisture from the air and releases it as clean, deep-penetrating, moist heat

The Dry Eye Compress is safe, effective and convenient:

- No Added Water Needed
- Clinically proven to improve tear layer function.
- Washable and Reusable
- Soft and Comfortable to Wear

The Dry Eye Compress will not support bacteria or fungi growth. Unlike grain and pellet products, the Dry Eye Compress requires no special covers, will not dry out, dissolve, or develop odors.

ALL FISH OILS ARE NOT CREATED EQUAL.

- No fish burps guaranteed!
- Natural triglyceride form = 70% better bio-absorption
- Tested & certified free of contaminants
- Sourced from highly sustainable fisheries: wild caught Nordic sardines and anchovies
- Proven effective in 8 weeks for most patients
