

Thinking Biblically About... School

Knowing how to think Biblically about school starts with knowing who we are what we were created for. When we know our purpose, we will know how to think about school. Look up the following verses in response to the questions and write what you learn.

Who are we? What is our purpose?

2 Corinthians 5:18-20

Romans 8:15-17

Now that we know who we are, let's look at how that affects all aspects of school, starting with the schoolwork and classes themselves. How should we do our schoolwork and learning?

Colossians 3:22-24

1 Corinthians 10:31

Philippians 2:14-15

Now, schoolwork is not the only thing we have to deal with at school. We interact with teachers, friends, classmates, locker mates, lunch servers, and many more. God has called us to be His children and His ambassadors as we interact with them as well. Let's look up the following verses to see how God asks His children to interact with people we are around.

Philippians 2:3-4

Matthew 5:39-48

James 2:1-9

So... how are we doing as God's children?

Who do you do your schoolwork for? Your parents? Your teachers? Yourself?

What are some creative ways you can change this and begin to do your schoolwork for God and His glory?

How are you doing in how you treat people?

How do you treat...

Teachers

Friends

Classmates

Locker mates

Lunch servers

How can you treat them better?
