MEUBLE EL CHARK

Meuble El Chark was established in 1944, and has over 65 years experience in successfully producing chairs, tables, sofas, barstools, etc, for contract furnishing.

We have grown from a handful of skilled workers in 1944 to a firm of 300 team members who take great pride in being capable of producing up to 300 different designs of chairs, tables and sofas, maintaining an average of 200 products per day and exporting to more than 30 countries worldwide.

Meuble El Chark founded the brand Cinec in the mid 90's to better serve its clientele in the field of public seating. Today, Cinec has successfully manufactured and installed seats with innovative designs for cinemas, theatres, schools, universities and conference halls in different countries in the world.

Meuble El Chark has created a new brand "Karassi + Karassi"; the brand is making its debut with a collection that captures Egypt's local stories in a contemporary context. The collection is an illustration of the harmonious cohabitation of the authenticity of the past, the practicality of the present, and the openness of the future.

We at Meuble El Chark can confidently boast of our pursuit of excellence and our long-term vision; for us, carving wood to make furniture is not just a profession, but a family treasure that we like to share with our partners.

Pinocchio designs and produces a wide range of wooden home and office furniture with a very special emphasis on KD furniture. Our product range includes: dining rooms, living rooms, bedrooms and office furniture items. Pinocchio's designs combine the spirit of Egyptian heritage and the simplicity of modern functionality. Pinocchio is one of very few companies in Egypt who design and produce Knocked Down furniture. Using modern machinery has allowed Pinocchio to produce products with the highest quality at competitive prices, while the highly skilled craftsmen have contributed to the high level of differentiation.

ULTRA DESIGN

Ultra Design is a leading manufacturer of modern lighting fixtures and furniture. It was established 22 years ago by architect Khaled El Chiati, who opened the Ultra Design flagship store in Cairo when there was comparatively little contemporary furniture in the city.

Ultra Design's dedicated factory in 6th of October city specializes in hand-crafted manufacturing methods as well as state-of-the-art technology to produce lighting with flair and timeless appeal, using a combination of different materials such as stainless steel, brass, wood, stone and glass.

The Ultra Design aesthetic evolved from international influences such as the Bauhaus and the modern movement combined with local influences inspired from Egypt's rich historical heritage.
