Cotton's Corner

What better time for a "Warrant of Fitness" than the start of a new year? A regular veterinary health check and vaccination programme can help detect and prevent potentially life threatening diseases. Nobody likes coming to the doctor but honestly "my vets" are actually exceptional - very thorough but very gentle and they will usually have a treat or two for obliging patients. If you are not vaccinated, then make sure you have your human bring you in to see one of my vets soon!.....

In the treatment of human beings, there are 35 medical specialists. Together they oversee human life from pre-natal procedures to palliative care.

In the treatment of your own health, you may need to consult numerous different medical practitioners, deal with long waiting lists and potentially travel far from home.

Your Blue Cross Veterinarian is responsible for the health of your pet throughout its entire life. To your pet this person is the 35 specialist doctors rolled into one ... **your pet's best friend!**
