# Micromesh Blanket

**Micromesh™ provides the ultimate organic solution for protecting your growing crops from pests and insects.**

- The ultra-fine mesh is only 0.6mm, which is small enough to keep out: Cabbage root flies, carrot flies, white flies, onion flies, flea beetles, aphids, and others
- Forms a barrier against insects, birds, animals, and frosts
- Allows sunlight, watering, and easy access to crops
- Also keeps out bees, wasps, cutworm, caterpillars, moths, and butterflies
- Green tint provides shade and retains moisture

Micromesh™ allows air and moisture through so your plants stay healthy and well nourished. Even better, there is no need to remove it when watering or giving liquid feed, just apply directly through the mesh.
**Tip: Can be cut to size if required!**

### 50-7000  Micromesh Prepack Blanket
Product: 198"L x 69.6"W
Pack: 13.8"W x 19.7"H   Pack Size: 1

6 51609 21066 8

# Micromesh Pest & Wind Barrier

**Haxnicks' ultra-fine Micromesh™ fabric is the best known, finest gauge pest protection fabric available. In addition to protecting vegetables from carrot flies and other insects and pests, it can also be used to create an effective windbreak.**

The Micromesh™ Pest & Wind Barrier provides an instant solution for gardeners that require protection from:
- Low flying insects, chickens, rodents, and cats
- Wind damage

Product features:
- Tightly woven ultra-fine 0.6mm mesh with Bamboo supports
- Allows sunlight, watering, and easy access to crops
- Essential for growing healthy carrots, parsnips, celery, and parsley
- Pack of 2, which protects over 26 feet in total
- Adaptable to surround various shapes of plots (see ideas at www.HaxnicksUSA.com)

### 50-4000  Micromesh Pest & Wind Barrier
Product: 157"L x 27.6"W
Pack: 9"W x 3.1"D x 39.4"H   Pack Size: 2

6 51609 21306 5

# EasyPath Instant Pathway

**Easy to use and easy to store, EasyPath is an instant, fold-out pathway that is ideal for placing between rows of vegetables, herbs, flowers, and more.**

- Tough outer weed barrier fabric stops weeds from growing between rows of plants
- Strong internal grid provides support for the gardener and containers for harvesting
- Protects wet lawns from wheelbarrows and foot traffic

### 50-EPATH01  EasyPath Instant Pathway
Product: 120"L x 12"W
Pack: 11.8"W x 1"D x 11.8"H   Pack Size: 1

# Vigoroot™ Pots & Planters

Vigoroot Planters and Pots are made from an advanced air-pruning fabric that creates a super-strong root system for healthier, more productive plants.

Much like our standard Patio Planters, our new Vigoroot planters are perfect for small and urban gardens, patios, and balconies, and they enable anyone to easily 'Grow Your Own.' And they come with convenient handles on the sides for easy mobility.

Vigoroot Pots are suitable for a wide variety of herbs and flowers, as well as strawberries. They work well on patios, in gardens, within decorative planters or containers, and for hydroponic gardening. Vigoroot pots can be easily moved, making them perfect for plants that may need to go indoors/outdoors throughout the various seasons.

## Poly Tunnels

- Warms soil enabling earlier planting
- Forms a complete barrier retaining warmth and humidity
- Protects against harsh weather, animals, and pests
- Made from U.V. stabilized, 150 micron heavy-duty polyethylene, and rust proof galvanized steel hoops

## Fleece Tunnels

- Creates warmth and insulation while allowing air, moisture, and sunlight to filter through
- Forms a complete barrier against frost and harsh weather
- Protects against animals and pests
- Made from U.V.-stabilized, 45gsm heavy-weight polypropylene fleece, and rust-proof galvanized steel hoops

## Net Tunnels

- Provides shade against strong sunlight
- Conserves moisture
- Protects from insects, birds, and animals
- Made from U.V.-stabilized, high-density 5mm mesh polyethylene, and rust-proof galvanized steel hoops

Quick and easy to use, Easy Tunnels are manufactured as a 1-piece design that open like an accordion and fold neatly away after use. They have open and closable drawstring ends for variable ventilation or completely closed protection.

## The Secret of Rootrainers™

The main root grows straight down the grooved cell towards the large drainage opening at the bottom
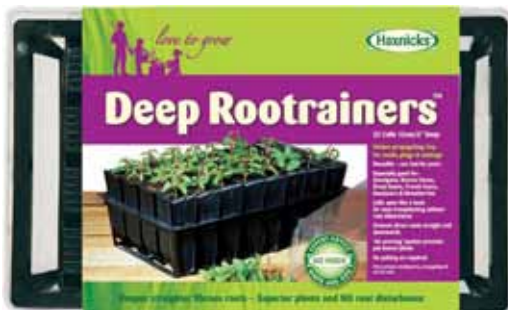

The root tip makes contact with the air and dies off

The plant then compensates by producing new root growth, with no root balls

- 'Air-Pruning' forms vigorous and strong roots
- Roots grow straight avoiding pot-bound plants
- Cells open for easy removal of plugs and damage-free roots
- Plants develop more quickly
- Use plastic lid to create a mini greenhouse
- Can be used time and time again

### Deep Rootrainers™

- 32 reusable cells, 5" deep, with holding tray and propagating lid
- Produces deep and straight roots without root balls
- Especially brilliant for sweet peas and runner beans, and all deep-rooted flowers, fruits, and vegetables

**50-9000  Deep Rootrainers™**
Product: 14.6"W x 8.7"D x 6.7"H
Pack: 14.6"W x 8.7"D x 8.7"H   Pack Size: 1

6 51609 10701 2

### Rapid Rootrainers™

- 32 reusable cells, 3" deep, with holding tray and propagating lid
- Faster formation of straight roots without root balls
- Especially brilliant for bedding plants, salads, and herbs

**50-9010  Rapid Rootrainers™**
Product: 14.6"W x 8.7"D x 6.7"H
Pack: 14.6"W x 8.7"D x 8.7"H   Pack Size: 1

6 51609 21005 7

- The reusable cells quickly snap together and tightly fit into the holding tray

- Open the cells like a book to check root progress or to easily remove individual plants without harming or breaking the root system

**ACCESSORIES**
