

Trunk Liners

Show customers that you care.

Keep your customers smiling all the way home! You do a lot to make your customers happy. Why not keep them smiling, and their cars clean, with trunk liners from TDI? Trunk liners are one of the easiest and most inexpensive ways to show you care.

From plain white to pre-printed, customizable to biodegradable, TDI has an array of designs to complement your business. And our trunk liners are larger to better fit any size vehicle, providing greater coverage and eliminating the need to use two (saving you money!).

When you think about advertising your business, think about doing it cost effectively with personalized trunk liners from TDI and create a lasting impression.

“We’ve offered TDI Trunk Liners at Weston Nurseries for several years. In addition to being a great way to advertise our Garden Center, they show the customer we are taking the time to care about their plant material and their vehicles.

It is an easy way to differentiate ourselves from the box stores. The simple act of putting a liner in a customer’s car is a huge customer service gain. And the display stand makes them quick and easy to use.

We ran the price comparisons and found these liners to be the best value for the money.

Ordering was very easy and straightforward, especially with e-mail approval of proofs. Being on the receiving end of good customer service is greatly appreciated, and shipments arrived when promised.”

“It's an easy way to differentiate ourselves from the box stores.”
