Type Mapping

Workshop outline

What information do you need to find your way from A to B?

Using Google maps as a starting point, re-create your map section only using only typography.

Digital project

To create an A5 map of 1 area of London using Illustrator and only typography

You will be allocated 1 piece of the London map per pair

All pieces will then be pasted together throughout the session to piece together the full map

You must work with the rest of the group to make sure your map matches up from edge to edge. The map should be visually interesting but also informative

Aims

- To think about how to communicate area using only type and one colour
- Developing use of kerning and tracking
- Working in a team - you will need to work with the other members of the group whose sections match up with yours

Constraints

- Section size – A5
- Type colour – Magenta (C = 0, M = 100, Y = 0, K = 0)
- Font – Helvetica Bold
- To be produced in Illustrator
- Must only use type (no shapes or images) may use type elements such as dashes, quote marks as visual tools

Today's task

1. In pairs, pick a map section

2. Download your digital segment from www.teach.okjostudio.com

3. Open it in Illustrator and use it as a base for your typographical map

4. Use Google maps to look at your specific area in more detail – the image supplied is a basic guide only

5. Email Jo (j.spencer@lcc.arts.ac.uk) with a jpg of your work once you have finished and it will be added to the group map projected on the wall

Constraints

- Section size – A5
- Type colour – Magenta (C = 0, M = 100, Y = 0, K = 0)
- Font – Helvetica Bold
- To be produced in Illustrator
- Must only use type (no shapes or images) may use type elements such as dashes, quote marks as visual tools
