**NEW! CUT & TURN FOIL** mats are ideal for heating under laminates, carpet and floating wood floors. FOIL mats are installed between the pad and the flooring material and can accommodate many sizes and layouts. No thin set required!

### Features & Benefits

- Foil provides even heat under wood and carpet
- Entirely grounded and waterproof
- 120v, 208v and 240v
- Many sizes. Can be custom shaped on site

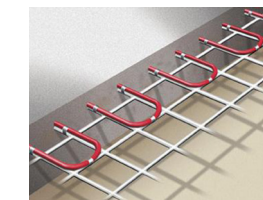

Is your basement cold?  
Is your bedroom above the garage?

Add heat where you need it. Warmup is a safe solution designed to be a primary heating system for the cold room in the house. Ask us about solutions to heat under nailed hardwood and bamboo!

**FOR HOME ADDITIONS, COMMERCIAL SPACES AND EVEN DOG KENNELS**, Warmup offers a range of mats and cables embedded in a concrete pour. Whether as a slab or as a finished floor, heating in concrete is a great solution to provide primary heating in a new space.

### Features & Benefits

- Mats and Cables for any shape and size
- 208v, 240v & 277v
- 70 BTU/sq ft equivalent
- Easily replaces water based systems

## OUTDOOR SNOW & ICE SOLUTIONS

DID YOU KNOW WARMUP HAS A COMPLETE LINE OF OUTDOOR SOLUTIONS?

**Warmup is more than soothing warmth and affordable luxury. It's a heating system.**

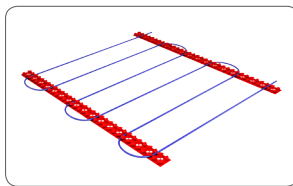

It can reliably be the only source of heat, making it a wise choice in bathrooms, sun rooms and basements. Depending on your room layout or the desired heat levels required, Warmup offers loose cables and mat systems.

### LOOSE CABLE SYSTEMS

Cable is installed with provided tape or clip system. Best suited for custom layouts and when specific heat levels are required.

#### Features & Benefits

- Very low profile
- Custom layouts
- From 10 to 240 sq ft runs
- 120v, 208v & 240v

### MAT SYSTEMS

Mats reduce installation time and guarantee even heat distribution. Maximum efficiency is provided when paired with Warmup Insulation Boards used over concrete slabs and uninsulated joist bays.

- Self adhesive, Fast installation
- Mats up to 240 sq ft
- Ideal for remodels (120/240v)
- 30 year warranty

### WARMUP EXCLUSIVE

**WARMUP INSULATION BOARDS** are only 1/4" thick and greatly improve the effectiveness of your installation by reflecting the heat upwards.

#### Features & Benefits

- Size 2' x 4' x 1/4" thick
- Completely waterproof
- Heats floors 78% faster
- Pays for itself in 2 years
- Light and cuts with a knife

### 3IE THERMOSTAT

You can heat the whole room with Warmup. That is why we designed and launched the exclusive 3IE Energy-Monitoring Thermostat. The 3IE can measure ambient,

floor and exterior temperatures and will even display notifications to help you find the best temperature settings.

#### DID YOU KNOW:

- The 3IE can be programmed in under 10 seconds?

### RESEARCH & DEVELOPMENT

Warmup is the only company with an EN422-2 testing facility. That is why only Warmup can tell you exactly how much it costs to heat a room, or even a whole house. Our research leads to unique products and applications, including:

- The 3IE Energy-Monitoring Thermostat
- The Cut & Turn FOIL
- The Warmup Insulation Boards

#### DID YOU KNOW:

- You can install Warmup in the shower and on a bench?
- We can keep your mirrors fog-free?
