By the end of your first treatment, we would expect to be able to demonstrate that:

- We are respectful to you and start treatments at the time that you booked and never ever keep you waiting for more than 15 minutes.
- We are knowledgeable about your condition or injury but will not scare you with medical terminology but instead help you understand your problem and solutions in language that you understand.
- We do not think that we can "talk you better". Our policy is to as quickly and effectively as possible commence treatment of patients. This will always happen at your first appointment.
- We are committed to working with you to get you sorted as quickly as possible and also help you achieve a lasting solution to your problem.
- We care and are passionate about getting you better.

We will do all this while demonstrating professionalism and a friendly disposition!
