- 1200 glasses per hour capacity
- Cool water rinse provides ready to use glasses or mugs
- Built-in three pump chemical dispensing system

T&S "Cerama" Ceramic Cartridges (-CR) are water-saving options available for many of our pre-rinse units and faucets. Look for our -C and -CR series pre-rinses and faucets.

Using the T&S Cerama Cartridge helps save, on average, approximately 5.5 GPM* over a standard compression cartridge on a dual temperature faucet.

Cartridge Comparison Standard Compression Cartridge and T&S Cerama Cartridge*

Standard Compression (not ¼ turn):

40 psi to both inlets = 18.06 GPM

60 psi to both inlets = 23.67 GPM

T&S Cerama Cartridge (¼ turn):

40 psi to both inlets = 12.73 GPM

60 psi to both inlets = 17.12 GPM

* Data from testing B-0230 faucet with standard 18" nozzle, with index tip (screen outlet), no aerator.

ALUMINUM Commercial Coffee Makers

WestBend.
COMMERCIAL

Style & Performance

Polished aluminum percolators brew perfect coffee and automatically hold it at the ideal serving temperature. These percolators are built for heavy-duty service and are ideal for caterers, restaurants, schools, health care facilities, offices and shops.

Fast brew times:

- 55 cups* – less than 40 minutes
- 60 cups* – less than 45 minutes
- 100 cups* – less than 70 minutes

* Capacity is based on 5 oz. cup (148ml)

- Dual, high-limit thermostat to protect against overheating
- Non-drip spigot
- Brew-view gauge and interior water level markings
- Twist-to-secure cover with stay-cool phenolic handles and knob
- Signal light to indicate when coffee is ready

Seal Covers feature an inner seal providing excellent spill resistance. Reduces spills during transport, reducing waste and improving employee safety. Translucent material allows for product visibility, reducing handling and lowering risk of cross contamination.

- Inner seal provides a tight seal, reducing spills and extending product freshness.
- Tight fitting lid reduces splash effect and lids popping off large size food pans during transport.
- Translucent color allows for product visibility, improving food safety.
- Thumb tab on all ends for easy removal.
- Withstands temperatures from -40°F to 160°F (-40°C to 70°C).
