## AIR SOLUTIONS SIMPLIFIED

## WHAT IS eAWB?

The **Electronic Air Waybill (eAWB)** program is an **International Air Transport Association (IATA)** initiative to streamline transmission and processing of the most key air cargo document.

Through digitization, the program eliminates paper-based **AWB** reporting between air cargo agents and airlines saving time, money and over thousands of tonnes of paper annually. CrimsonLogic is proud to offer you best-in-class eAWB solutions, enabling immediate connectivity to over 90 airlines for your global eAWB implementation needs.

## WHO SHOULD USE IT?

International Freight Forwarders with their own unique code registered as an IATA Cargo Agent.

## HOW DOES IT WORK?

1. Origin Airfreight Agent Creates Master Air Waybill (MAWB) in CrimsonLogic GeTS portal.
2. CrimsonLogic system auto-populates relevant master level data to House Manifest(s), Agent then enters additional missing info. MAWB and House Manifest(s) transmitted to Airline.
3. Airline sends periodic Status Updates (FSU) including Cargo Receipt (RCS) back to the agent once this shipment is received by the ground handling agent (GHA) and ready for carriage.

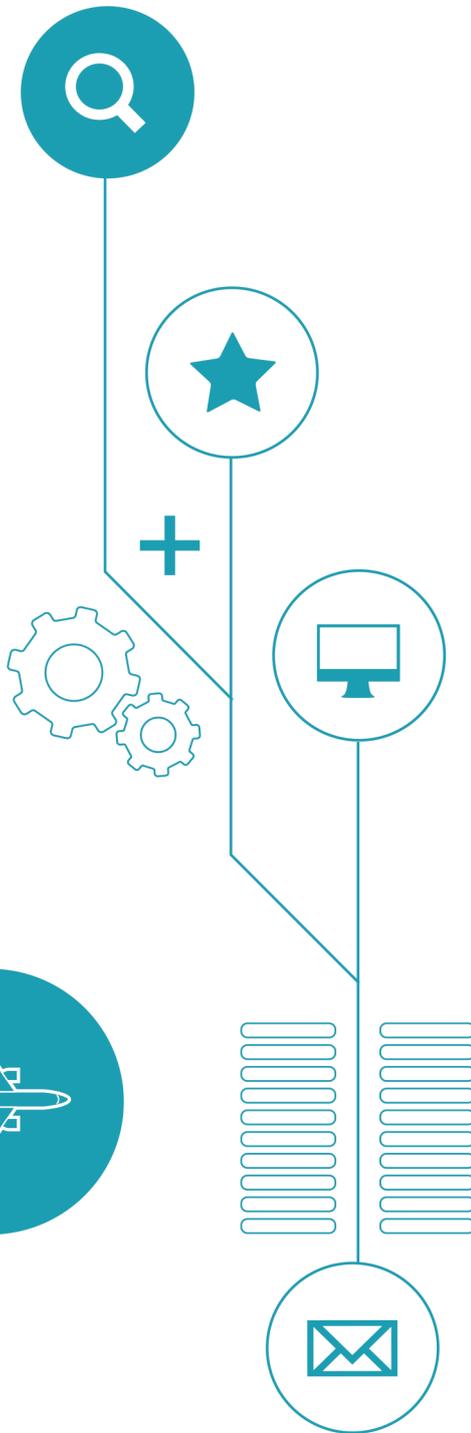

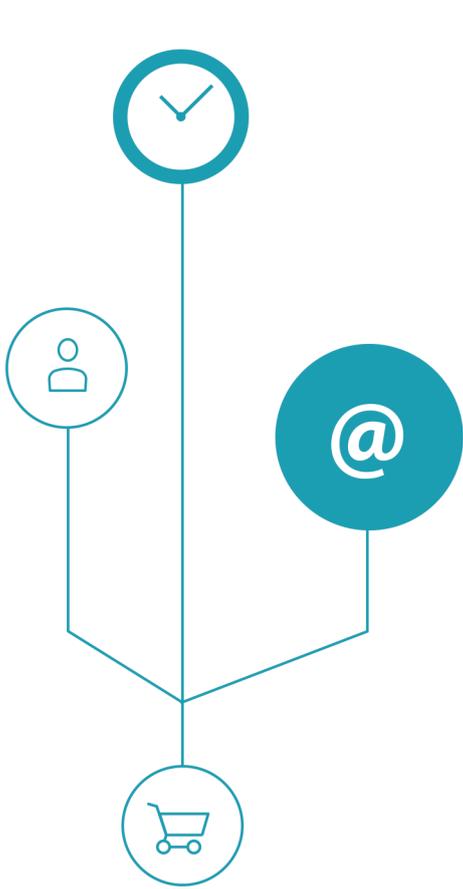

# BENEFITS OF eAWB

# GETTING STARTED WITH CRIMSONLOGIC!

1. Register with CrimsonLogic
2. Sign the IATA "Multilateral eAWB Agreement"
3. Check that your stations (origin and destination airports) are approved to accept eAWB message handling
4. Go Live! Connect to over 90 airlines (and growing) all from one easy-to-use eAWB portal by CrimsonLogic Global eTrade Services!
