PANTRIES

PULL-OUT WINE RACK

A well organized pantry is a “must have” for the pampered chef, aspiring “foodie” or short-order cook with a growing family. As the kitchen is often times the central meeting place in any house, without proper organization it can get overcrowded and messy very fast. Avoid this madness with a thoughtfully designed pantry system.

WALL BEDS

Turn a home office into a guest room. Or, vice versa. Wall beds can stand alone or a system can be built around them; get the best of both worlds with wardrobes on both sides. Many of our customers even do a wrap around desk to the side making a complete wall bed/office solution for your extra room.

GARAGES

Garages get messy quickly with overflow from the rest of the house. Garage organization systems can not only clean up the area, but allow you much more storage space. Turn a “cave” into a place of comfort where everything has its place. Once we’re done you might even find room for your car.

Solid wood doors, drawer faces and mouldings feature the natural beauty of real woods. Part of the beauty comes from the irregularities in color and grain. Thus, variations among component parts are to be expected. Wood finishes are fragile and require the same care as any wood furniture.

OPTIONAL FINISHING TOUCHES

The devil is in the details. Attention to the little things delivers a storage system that will serve you with beauty as well as functionality for years to come. These are a few optional finishing touches that ensure a flawless system.

Moulding:

Every home is unique and contains imperfections that need to be addressed prior to installation. We recommend applying base and crown moulding during installation where walls, ceilings and floors might not be straight.

FULLY BORED PANEL

SELECTIVE DRILLING PANEL

Fully Bored vs. Selective Drilling:

You have the option of ordering your system fully bored or drilled selectively. With fully bored panels all shelves are adjustable whenever the customer wants a change. With selective drilling, there are fewer holes, but panels shelves are set in place and not easily movable.
