Nameplate Frames

- All frames are made from sturdy rust-proof stainless steel or carbon fiber composite and guaranteed for a minimum of 4 years exterior use.
- Stainless Steel offered in six different finishes; Polished Mirror Bright, Brushed, Powder Coated Flat Black, Satin, Carbon Fiber Faux, and Black Pearl.
- Real carbon fiber composite frame offered with a glossy clear topcoat finish.
- Available in two or four hole style for easy mounting application, our frames fit all 12" x 6" US plates and will not block registration tags in all 50 States.
- Frames feature a custom recessed nameplate with up to four colors on white, silver, or black background. A clear protective doming is applied over the top of the nameplates to protect the graphics from UV fade and the elements.

Quality Made Keychains

Camiasca offers a wide variety of quality, custom branded keychains to appeal to your customers' needs.

Choose from our signature lines of stainless steel or carbon fiber composite keychains. Or try our newest offering, a complete custom-made, one-of-a-kind commemorative car miniature.

- Variety of sizes, finishes, colors, and key rings, are available to suit all your CI and key fitment needs.

Tire Valve Stem Caps

- This unique accessory provides a finishing touch to complement all wheels and tires in your vehicle line; features your company logo.
- Available in chrome, black, and satin finishes with a variety of color logo treatments, including real carbon fiber composite.
- Knurled head design allows for simple installation without a wrench or removal tool.
- Made from light-weight ABS material and is compatible with Tire Pressure Monitoring Systems.
- All caps feature an O-Ring inner seal to protect the valve and to ensure a clean valve orifice.

Tow Hitch Cover

- A simple, efficient, decorative design to protect the hitch receiver from dirt and debris.
- Made from exterior grade plastic, and features a custom aluminum or carbon fiber composite decorative emblem.
- Each emblem is encapsulated under a clear UV protective polyurethane dome.
- Available to fit standard 2" trailer receiver.
- An optional rubber Tow Hitch Cover Lanyard is available to reduce the risk of leaving the cover behind.

Optional Lanyard.

Magnetic Message Ovals

- The perfect way to place a message on a vehicle without the risk of leaving any type of sticker residue on the paint.
- Can be securely placed onto any painted ferrous metal surface, and easily removed for washing or waxing.
- UV resistant material allows our ovals to stand the test of time by preventing fading and discoloring.

Parking Signs

- A quality alternative to the standard, inferior tin signs on the market, our parking only signs are the perfect combination of pride and durability being made from 5/64" thick exterior grade aluminum composite sign material.
- 12" x 8" in size, these timeless classics come complete with mounting hardware and white matching hardware hider caps for a finished look.
- The graphics are applied using a full-color screen-printed process with exterior grade inks baked onto a white semi-gloss sign finish.

Automotive Gift Picture Frame

- Camisasca's exquisite line of quality stainless steel license plate frames is available on a new line of beautiful Automotive Picture Frames.

Why should your car have all the fun?

- Here is a unique gift item to commemorate a new vehicle purchase or special event.
- Available in two frame finishes of black or polished and five different mat board colors to choose from, featuring your promotional message.
