BIO SECURITY RULES
HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE
Notice to all Visitors and Traders

Please read and observe the following:

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving pennage areas.
- Please observe our staff's instructions at all times.

Our on site Biosecurity Officer, Stuart Graham, will only be too pleased to give you assistance.

INVESTORS
IN PEOPLE

General Information & Sale Notes

LOCATION: The Sale will be held in the Borderway Mart, Carlisle Cumbria. Motorists should leave the M6 at Junction 43 and follow CARLISLE signs. The market is on the left hand side of the road within 1/4 mile of M6.

Timetable of Events:-

Thursday 6th November	Arrival of stock	12 noon - 6pm
Friday 7th November	Arrival of stock	7am - 8.30am
	Inspection of stock	8.00am onwards
	Judging	9.00am
	Sale	11.30am

HOTELS: There are many hotels within the area, ranging from four star to excellent Bed and Breakfast accommodation, a list of which may be found on page 5.

CONDITIONS OF SALE : The Sale is held subject to the Auction Rules and Conditions of the BSCS together with the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

INSURANCE: A representative of the H&H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

PEDIGREE TRANSFERS: Pedigree certificates will accompany the animal from the sale. All transfers will be processed automatically from the office for all member purchases

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

ANIMAL WELFARE: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE IN BORDERWAY MART and that weakly, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH & WELFARE OFFICER.

Important Notice to Vendors

ARRIVAL OF STOCK - As per timetable of events (page 6).

PRE-SALE INSPECTION: Every animal will be subject to a full veterinary inspection and every animal entered for the sale must be inspected in the Sales premises by the appointed Inspector, on the day of the Sale. Animals infected by the contagious diseased ringworm etc, will not be accepted for sale unless accompanied by a vet's certificate indicating that treatment has been given and the condition is no longer contagious. The inspection will be co-ordinated by the stewards who will require animals to be brought before the appointed inspector. The inspectors decision will be final and binding. Any animal which fails any part of the pre-sale inspection, will have their ticket red spray marked. These animals will be eligible to remain in their allocated pens but must not have their spray marked numbers removed. Any vendor or his representative failing to comply with this will be subject to disciplinary action by the Society.

Any animal not meeting their weight for age on inspection or that are rejected on veterinary grounds are NOT allowed to go forward for sale.

UDDERS - The attention of Purchasers is drawn to the fact that the British Simmental Cattle Society's Conditions of Sale, in common with other Beef Breed Societies, do NOT include a specific warranty that females are sold as being "sound" in udder and teats. All known udder faults will, however, be announced.

TATTOO MARKS/UK TAGS - All cattle entered for the Sale will have their tattoo marks/UK Tags examined as an integral part of the pre sale inspection procedure. Any marks found to have faulty, incorrect or illegible marks will be REJECTED from the Sale. Vendors are therefore urged, in their own best interests, to examine the tattoo marks of Sale cattle before the animal(s) leave their farm, so that faulty marks can be rectified in accordance with the required Society procedures.

DNA TYPING OF STATED SIRES WHEN SELLING FEMALES IN CALF - As from 1st October 2008 it will be the **Vendor's responsibility** to have a Sire DNA typed if the vendor is selling Females in-calf to a stated sire. If the Sire is no longer available and has not been DNA typed it is the Vendor's responsibility to declare this in the Sales catalogue. (This rule also applies to Private Sales).

To clarify: if a Sire is not DNA typed the Society cannot register his progeny. To obtain a sire profile without the sire, 5 progeny and their dams have to be DNA typed, this is 10 DNA profiles at a cost of £23.10 each. The purchaser must be made aware by the vendor of the potential registration problems and costs.

UPSET PRICES - There will be an 'Upset' price of 2000 guineas on each bull presented for sale - i.e. if no opening bid of 2000gns is received for any particular lot, that lot will be passed out of the ring unsold.

RESERVE PRICES: Vendors shall have the right to refuse to accept the final bid for their animals. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

SOCIETY LEVY - A Special Levy of 1½% of the sale price (after deduction of commission) will be charged by the Society in respect of all sales. Such levy will be deducted from the proceeds of sale by the Auctioneers before settlement.

All animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales. No animal may be sold privately before being passed through the auction ring and **FULL COMMISSION** will be charged on the sale of any animal sold by private treaty after the auction. All such transactions **MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.**

THE STEWARDS have the authority to reject any unruly animal from the Show and, at their discretion, from the Sale. EVERY ANIMAL FORWARD FOR SHOW MUST BE PROVIDED WITH A SERVICEABLE HALTER, which will become the property of the Purchaser. White coats must be worn during judging.

PRIZE MONEY - will be withheld unless the winners are sold, either by auction or private treaty.

STRAW: A limited amount of bedding straw will be provided by the Auctioneers.

IT IS ESSENTIAL THAT THE FOLLOWING DOCUMENTS ACCOMPANY ANIMALS TO THE SALE PREMISES

and are handed to the Auctioneers upon the arrival to the market.

DECLARATION FORM CATTLE PASSPORT, CID / CCD, CTS

**ANY ANIMAL NOT IN POSSESSION OF THE REQUIRED
DOCUMENTS WILL NOT BE OFFERED FOR SALE.
PLEASE NOTE IT IS ILLEGAL TO MOVE ANY ANIMAL
WITHOUT THEIR RESPECTIVE PASSPORT DOCUMENTATION.**

IMPORTANT NOTICE TO PURCHASERS	
1	This Sale is held subject to recommended Conditions of Sale of the National Beef Association.
2	This Sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beef Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for pedigree cattle breeders, The Committee of the NBA have agreed that the following levy to be charged between the vendor and purchaser as follows – Bull Warranty - £3 to the vendor and £3 to the purchaser, Female Warranty - £2 to the vendor and £2 to the purchaser, Each amount will be plus VAT and be charged to the relevant vendor and purchaser accounts.

CHAMPIONSHIPS

SUPREME CHAMPION

SH WATTERSON PERPETUAL TROPHY

A prestigious Brierley Crystal Vase will be awarded to the Supreme Champion animal, to be retained by the winning owner

SPECIAL AWARD

The North West Simmental Club will award a

SPECIAL PERPETUAL TROPHY

and a pair of engraved whisky tumblers
for the best animal exhibited by a member of the club

OFFICIAL SALE RULES

All animals entered for sale under the auspices of any breed society shall be sold subject to and in accordance with the following rules.

- (1) The consignor must be a member of the relevant Breed Society. All animals must be clearly tagged and registered in the Herd Book of the relevant Society by the Breeder, or in the case of imported animals, have been registered in the Herd Book of the country of origin and entered in the Herd Book of the Relevant Society.
- (2) Should any dispute arise as to the identification in the Herd Book of the relevant Society of any animal exposed for sale or as to the pedigree of any such animal, such dispute should be referred to the Council of the relevant Society or such Sub-Committee as the Council may appoint as Arbiters and their decision shall be final.
- (3) The Council of the relevant Society may, prior to any Sale, nominate and appoint a Panel of its members to inspect any animal forward at the Sale, in order to ascertain that such animals are fit for inclusion in the Sale. The Members so appointed shall, in consultation with the Auctioneers, be the sole judges as to whether or not such animals may be included in the Sale and shall have power to debar from the Sale any animal which they consider is not of a fit standard. No consignor will have any claim for damages in respect of any animal which is rejected under this Rule.

British Simmental Cattle Society Ltd. Sale Rules - copies are available from the British Simmental Cattle Society office if required.

UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only British Simmental GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait and they are to be used as a tool to assist in the selection of sires, **the visual appearance remains very important.**

ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny. Calving Ease (DIR) EBVs are estimates of genetic differences in the ability of a sire's calves to be born unassisted from **2 year old heifers**. The EBVs are reported as differences in the percentage of unassisted calvings.

Higher, more positive, Calving Ease (DIR) EBVs are more favourable. For example, a bull with an EBV of +5.0% would be expected, on average, to produce 3% fewer difficult calvings **from 2 year old heifers** than a bull with an EBV of -1.0% (6% difference between the sires, then halved as they only contribute half the genetics). **Cow condition is a significant factor on the ability and ease of calving.**

DTRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

Calving Ease (DTRS) EBVs are estimates of genetic differences in the ability of a sire's daughters to calve at 2 years of age without assistance. The EBVs are also reported as differences in the percentage of unassisted calvings.

Higher, more positive, Calving Ease (DTRS) EBVs are more favourable. For example, a bull with an EBV of +4.0% would be expected to on average produce daughters that have 3% less calving problems when calving at 2 years of age than the daughters of a bull with an EBV of -2.0%. Continued use of sires with easy calving daughters may reduce the size of the cows and average pelvic area in the herd

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth. For example, a bull with a Gestation Length EBV of -2 days would be expected to produce calves that are born earlier, and more easily, than a bull with a Gestation Length EBV of +2 days.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers. Birth Weight EBVs are expressed in kilograms (kg) and are calculated based on weights of calves taken at birth. Small, or moderate, Birth Weight EBVs are more favourable. For example, a bull with a Birth Weight EBV of +2 kg would be expected to produce lighter calves at birth than a bull with a Birth Weight EBV of +6 kg, with a lower risk of a difficult birth.

Please note, whilst low Birth Weight EBVs are favoured for calving ease they are also generally associated with lower overall growth potential. Consequently, birth weight and growth need to be carefully balanced. Fortunately, animals can be found that have both moderate Birth Weight EBVs and above average EBVs for later growth.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. Increased scrotal circumference is associated with increased semen production in bulls, and earlier age at puberty of bull and heifer progeny. Increased scrotal circumference also has a favourable relationship with days to calving, such that bulls with larger scrotal circumference tend to have daughters with shorter days to calving. For example, a bull with a Scrotal Size EBV of +4 cm would be expected to produce sons with larger testicles at yearling age and daughters that reach puberty earlier than the progeny of a bull with a Scrotal Size EBV of -4 cm.

GROWTH

MILK: 200 Day Milk EBVs are estimates an animal's maternal effect on the 200 day weight of its calf. In the case of sires, this estimates the maternal effect that his daughters will have on the 200 day weight of their progeny. The 200 Day Milk EBV is expressed as kilograms (kg) of calf live weight at 200 days (ie. the expected difference in the weight of the calf at 200 days due to the maternal effect (milk) of the cow). The 200 Day Milk EBV is calculated by partitioning the difference in the 200 day weight of calves into growth and milk components.

The optimum level of milk production potential among beef cows is dependent upon the production system and environment in which the cows are run. Selection for increased milk production may be warranted when cows are run under good nutritional conditions and calves are sold as weaners. However, some environments may not support high milking cows.

Larger, more positive, 200 Day Milk EBVs are generally more favourable, depending on the environment. For example, a bull with a 200 Day Milk EBV of +15 kg would be expected to sire daughters with higher milk production than a bull with 200 Day Milk

EBV of +5 kg. This higher milk production potential should be reflected through higher weaning weights among the daughter's calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

CARCASE

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals. Larger, more positive, EMA EBVs are generally more favourable. For example, a bull with an EMA EBV of +4 cm² would be expected to produce steer progeny with a greater degree of muscle expression than a bull with an EMA EBV of +1 cm².

RIB: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

Terminal Index

The BSCS Terminal index is aimed at a commercial herd using Simmental bulls over large framed, mixed breed cows to breed steers and heifers to turn off at 16 months of age. All progeny are destined for slaughter and no replacement females are selected from within the herd. There is some emphasis on calving ease while finishing steers at around 630 kg live weight (335 kg carcase weight) using a pasture based production system supplemented with extra rations during the finishing phase.

Use this index in a commercial herd to produce progeny for slaughter. The index has moderate emphasis on easier calving (ie getting a live calf with minimal human interference) while producing calves that will then grow quickly to market specifications at around 16 months of age. The index is focused on slaughter animals and does not account for maternal traits and is therefore not suited to breeding replacement females.

If you are using smaller framed cows or heifers in your herd, then you should also put extra emphasis on a higher calving ease direct EBV when selecting a sire using this index.

Self Replacing Index

The BSCS Self Replacing index is aimed at a Simmental herd selecting replacement females from within the herd while breeding steers and excess heifers to turn off at 16 months of age. There is emphasis on calving ease and maternal traits while also looking to finish steers for

slaughter at around 680 kg live weight (350 kg carcass weight) using a pasture based production system supplemented with extra rations during the finishing phase.

This Self Replacing index is also suitable to using Simmental sires over mixed breed cows where replacement females are sourced from within the herd. There may be some hybrid vigour expressed in the progeny depending on the breed type of the cows used. Therefore you should consider placing extra emphasis on the Calving Ease EBVs (more positive) of the sire to allow for possible heavier birth weights of his calves due to hybrid vigour.

Use this index in both commercial and pedigree herds where you are balancing the requirements of selecting replacement females while also producing animals for slaughter.

The British Simmental GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the British Simmental Cattle Society nor the ABRI oversee or audit the collection of this data.

EBVs improve profitability

In recent trials bulls with superior Estimated Breeding Values (EBVs) were worth an extra:

- **£42/calf** – Harper Adams, 2012, Aberdeen Angus
- **£45/calf** – Teagasc, 2009, Mixed Sires
- **£35/calf** – Dovecote Park, 2008, Hereford
- **£45/calf** – Harper Adams, 2007, Limousin

EBVs are for everyone

Store calf producer

Easier calving and better conformation store calves

Self contained herd

Easier calving, more productive cows and faster growing calves

Finisher

Faster growth rates with superior carcase conformation

EBVs at your finger tips

**MAJOR REDUCTION OF THE
RYDEN HERD**

The major reduction sale of the Ryden herd has come about due to the loss of tenanted farm. All the cows have come straight off grass and have not seen any concentrates, as is the same with the calves as the cattle have been running alongside sheep.

Over the years top AI bulls have been used across the herd as you will see from their pedigrees.

The service sire used is Clonagh Tiger Gallant (sire – Dovefields Gallant, dam – Clonagh Neva). His progeny includes Ryden Darthvader who sold for 10,000gns Feb 2014 and Ryden Denny who sold for 5,800gns also Feb 2014.

Three of the outfits on offer are sold with Limousin cross calves due to no Simmental stock bull being available at that time.

RYDEN ELLI is full sister to Annanwater Venice who is mother of **Ryden Dathvader** that sold for 10,000gns Feb 2014.

**HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
