

## Sircle POS

### Accessing The Tablet Keyboard After Connecting a Bluetooth Scanner

## Step 1

- Go to the “Settings” application on your tablet

## Step 2

- Scroll down to “Language and Input”

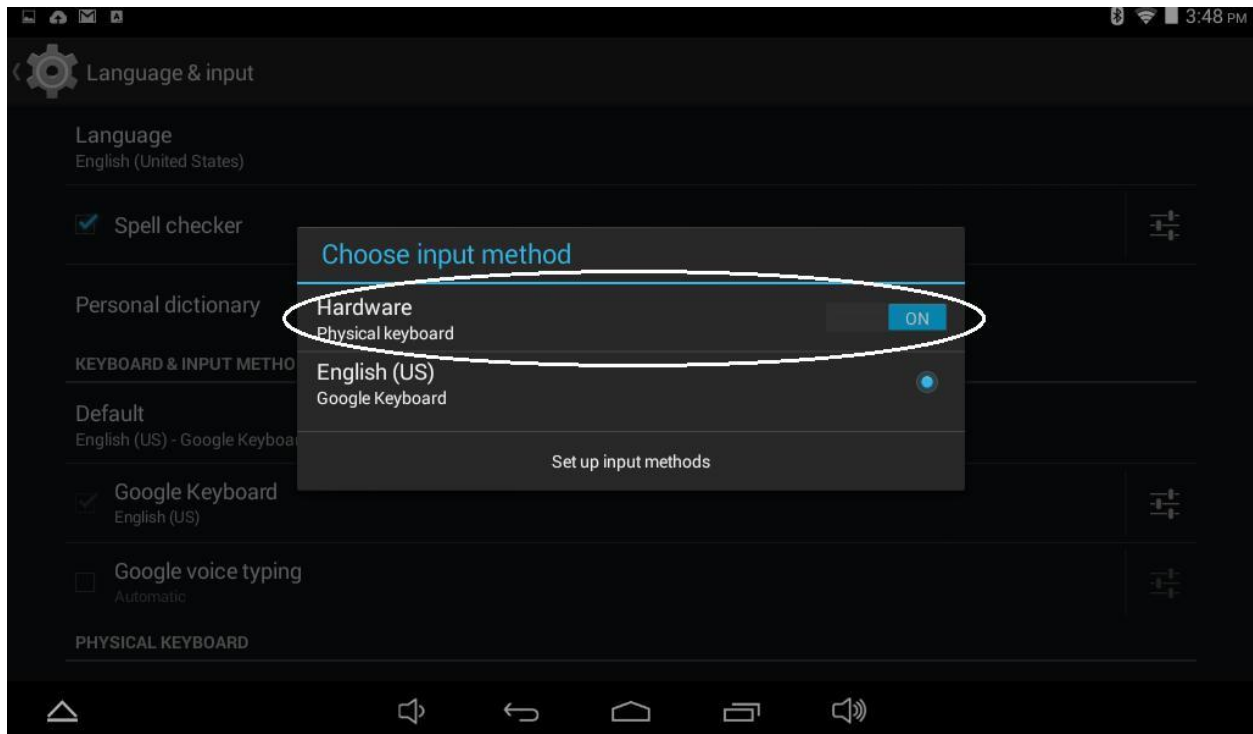

### Step 3

- Select “Default” under “Keyboard & Input Methods”

## Step 4

- Switch “Hardware” from “On” to “Off”

## Step 5

- Check to see if “Hardware” is “Off”
- You can now use the default tablet keyboard with your barcode scanners!
