

Huntsville State Park

100 Mile Course

DISTANCES PER LOOP

Aid Station	Leg	Total
Dogwood	0.00	0.00
Nature Center	3.10	3.10
Dam Road	3.09	6.19
Dam Road	6.01	12.20
Park Road	3.41	15.61
Dogwood	4.39	20.00

x 5 loops =
100 Miles

Official TNVD Map of Huntsville State Park, last modified by Chris Adams, June 2008.
Map was created using ArcGIS software. All distances are approximate only.
For an official park map, please see the back headquarters of the TNVD web site: <http://www.tnvd.state.tn.us/>.
Approved to print on 11x17 Trail poster.

Total distance listed is the distance between distance markers. Total were measured with a Robinson 400 meter wheel encoder a mountain bike outfitted with a CatEye Endura 8 computer connected to the rolling circumference of the tire. Total distance measured was 5,000.00 miles. All GPS data was taken from a Garmin 160 GPS program to which was used to generate the map. All distances are approximate only. All distances are approximate only. All distances are approximate only.
