Subject: TI Georgia's Draft Report on INGO Transparency

Importance: High

Dear all,

Transparency International Georgia has compiled a ranking of the horizontal transparency of international aid organizations based on the content provided on their websites.

The **attached DRAFT report** will give you an overview of how your organization was preliminarily ranked. (Oxfam currently leads the field by a wide margin.)

TI Georgia has already contacted all ranked NGOs using email addresses provided online (see the report). However, we gained the impression that some of these emails may not be working.

Therefore, we have decided to follow up by phoning all Tbilisi offices of the NGOs ranked to obtain working email addresses - the emails that we are now using.

Please review the score of your NGO and inform us of any mistakes. While we cannot take into account changes on your website that were made since the original ranking, TI Georgia will be extremely happy to improve the score of your organization and re-write the relevant sections of the report if you email us the complete proposals with budgets for all your ongoing projects as public documents (we will hide individual salary information before re-posting on our website).

Please email any corrections, or proposals + budgets, to me by email before 6pm on Monday, 15 June 2009.

Thank you in advance.

Best wishes,

Tamuna Karosanidze

Executive Director
