

COURSE SYNOPSIS

MODERNIZED B2B SELLING

WHAT IS MODERNIZED BUSINESS-TO-BUSINESS (B2B) SELLING?

Modernized selling is a strategy and framework for sales professionals to create their own sales pipeline and efficiently manage complex opportunities. Pipeline creation is achieved with a strong personal brand that demonstrates insight and value for the target market; then leveraging technology and LinkedIn to create extended reach and connection. Opportunities are then qualified and managed efficiently and effectively with the RSVPselling™ framework which addresses the four key elements of winning:

1. Relationships with the right people
2. Strategy for managing politics and competition
3. Value creation as defined by the buyer
4. Aligning with the buying organization's evaluation, selection and procurement processes.

Both frameworks are proven and have delivered opportunities and hundreds of millions of dollars in revenue for B2B sellers.

WHY SELECT THIS COURSE?

This course enables sales people to lead with insight and value in personally creating sales pipeline by improving their personal brand and strategies for connecting and engaging buyers. Participants also learn how to intuitively qualify and manage complex opportunities with pragmatic tools and methodologies to improve new business win rates. Personal leadership and 'positive differentiation through the way we sell' is a core principle of the course.

COURSE OUTLINE

The course enables sellers to move away from traditional 'interrupt and push' approach to instead 'attract and engage' and includes elements of both the Strategic Enterprise Selling and Strategic Social Selling courses. The three key elements covered are:

1. Creating the right conversations by leading with insight and business-case value for the senior decision-maker.
2. Creating sales opportunity pipeline with a strong personal brand leveraging LinkedIn for targeted research, connection and engagement.
3. Managing the complex sale by mapping relationships and navigating organizational politics, creating the right competitive strategy, understanding and creating value as defined by the customer, and aligning with the buyer's selection and procurement processes to deliver forecast accuracy.
