

MONEY MATTERS

The Bible exposes conflicting views God & Satan have about money. God wants us to celebrate being His managers, living with self control and purpose. In contrast Satan wants us to be consumers living with passion from one celebration to the next. Sometimes we get distracted and end up being controlled by our stuff rather than us controlling it. In April we will have a sermon series on money matters. From the vantage point of the three crosses we can see how both of those views end up. You, the church, will select the sermon topics I will preach. Vote (circle the number of stars you would rate each topic). Those topics collectively getting the most stars will be the sermons topics I preach. Turn this in by March 1st.

1. Your reaction to money is a test of your spiritual condition. Satan suggests that what you do with money is none of God's business.
