

In this week's sermon, we studied the story of David and Goliath and looked for generational leadership issues in the passage. **Read 1 Samuel 16:14-17:58.**

1. What generational leadership issues do you see in this story?
2. Where else in Scripture do you see the value/mandate/call to continually invest in the next generation?
3. What is the difference between raising up a generation to follow in our footsteps, and raising up a generation to follow in the footsteps of Jesus?
4. In what ways has our generation followed Jesus? How are we passing that on to the next generation?
5. In what ways has our generation not followed Jesus well? How can we communicate that to the next generation?
6. What have we learned from the generation before us on how to follow Jesus?
7. What will be the challenges in passing on faith to the next generation?
8. How will you actively invest in the next generation?
