and a product id to construct the link with

<ProductID type="Reference">102646961</ProductID>

You can create an eBay Partner Network affiliate link by taking the 102646961 and adding it to [http://www.ebay.com/ctg/?\\_pid=](http://www.ebay.com/ctg/?_pid=)

which ends up looking like this.

[http://www.ebay.com/ctg/?\\_pid=102421491](http://www.ebay.com/ctg/?_pid=102421491)

Next, just place this new catalog link at the end of a custom url link from your ePN account, like this.

[http://rover.ebay.com/rover/1/711-53200-19255-0/1?ff3=4&campid=5555555555&toolid=10001&customid=&mpre=http://www.ebay.com/ctg/?\\_pid=102421491](http://rover.ebay.com/rover/1/711-53200-19255-0/1?ff3=4&campid=5555555555&toolid=10001&customid=&mpre=http://www.ebay.com/ctg/?_pid=102421491)

Be sure to use a campaign ID from your own account in the link above.
