EQUIPMENT RECOMMENDATIONS

1 HEIL SOUND PR40 PACKAGE

\$369.00

Dynamic Mic w/ Black Shockmount, HB1 Boom, BSW Broadcast Microphone cable and Pop filter

The **Heil PR-40** dynamic microphone boasts an innovative design along with top-shelf components to deliver a sound that rivals condenser microphones, but without that all-too-common background noise and need for external enhancements.

The **Heil PRSM-B shock mount** is a flexible support system that helps suppress low frequency rumble on the microphone line by absorbing and damping vibrations picked up from the studio desk or console.

The **BSW RE27POP** is the ultimate pop filter. Its fine mesh metal screen diminishes undesirable P-Popping while keeping the integrity of the high-end frequency response.

With this package you also get the **BSW-BMC-20**, a 20-foot, balanced mic cable specially designed for broadcast microphones featuring Neutrik XLR connectors (with a 90-degree female connector for a sleeker look on large broadcast microphones).

Professional Studio Monitor Headphones

As the most critically acclaimed model in the M-Series line, the **ATH-M50** is praised by top audio engineers and pro audio reviewers year after year. Now, the ATH-M50x professional monitor headphones feature the same coveted sonic signature, with the added feature of detachable cables. From the large aperture drivers, sound isolating earcups and robust construction, the M50x provides an unmatched experience for the most critical audio professionals.

2 AUDIOTECHNICA ATHM50X

\$149.50

3 MACKIE PROFX12V2

\$279.99

12-Channel Professional FX Mixer with USB

Mackie ProFXv2 Series mixers provide a comprehensive live sound solution, with models from 4 to 30 channels, covering a huge range of applications. Delivering unmatched sound quality, ProFXv2 features all-new Mackie Vita preamps, which are virtually noiseless and designed specifically for the highly-dynamic world of live sound. ProFXv2 also includes the immensely powerful new ReadyFX effect engine, harnessing floating-point DSP to deliver 16 rich effects that elevate any performance. The ProFXv2 no-compromise live sound toolkit includes a room-shaping GEQ, flexible I/O and a built-in USB interface for hassle-free recording/playback. With a rugged steel chassis and unmatched sonic performance, ProFXv2 is truly the life of your live mix.
