Incubator Farmer Program

IFFS Teaching Farm on Tryon Rd, Raleigh

"It really does help a new farmer who has some knowledge, but not a lot, to get started. With family farms, you learned how to farm on the farm, with others – so the Incubator Farm Program helps people who want to farm but don't know how to actually put it all together."

-Simple Living Farm

Hydroponic Lettuce

Have you always wanted to...

- Eat food grown without pesticides or chemicals?
- Grow super-fresh amazing tasting veggies for your family, friends and neighbors?
- Earn extra income and grow your own career/family based business?

We provide...

- Access to tilled land from 1 row up to 1/6 of an acre with deer fence and drip irrigation
- Hand tools and tractor/tiller lessons
- On farm compost and leaf mulch
- Organic fertilizer and pest treatments for purchase
- Access to our Agricultural Training Workshops including our ***Plant the Pavement!*** workshop series with Will Allen and Growing Power.
- Face time and mentorship from our professional farmers
- Hands-on training in managing a small-medium size market vegetable farm
- Marketing support to help you make money on your vegetables!
- No fee; only a volunteer farm work requirement starting at 3 hours per week.

For information on how to apply:

Contact Sun@FoodShuttle.org

Some farming/gardening experience necessary.

Inter-Faith Food Shuttle

We feed. We teach. We grow.
