## PAY IT FORWARD COCOA PORTER

Oil slick black with ruby highlights around the edge of the glass. Creamy tan head on the pour, a chewy mouthfeel works with a coffee sweetness and a touch of dark chocolate from the cacao nibs. This porter exemplifies the traditional smoky qualities of the style, while still reaching out to new flavors with the roasted chocolate taste.

### WHY A CAN?

**'Better for the beer.**

**Better for the planet. Better on the go.'**

Most importantly- cans keep beer fresher longer - keeping out light and air with a tight seal. They are great for the environment, costing less to ship and easy to recycle. They can also go many more places than bottles - hiking, camping, concerts, and festivals!
