

HERRING RIVER RESTORATION PROJECT

Herring River Technical Committee
Town of Wellfleet, Wellfleet, MA 02667

To: Town of Wellfleet, Board of Selectmen
Town of Truro, Board of Selectmen
Cape Cod National Seashore, George Price
Residents, property owners and interested parties

The Herring River Technical Committee (HRTC) is pleased to submit this Conceptual Restoration Plan (CRP) for the Herring River Tidal Restoration Project. The CRP satisfies the charge to the HRTC, under the August, 2005 Memorandum of Understanding (MOU I) between the Town of Wellfleet and the Cape Cod National Seashore.

This CRP is one step in a continuing process. It is not a “final” restoration plan but contains the technical information and describes components necessary to develop a more Detailed Restoration Plan. This CRP is submitted in association with a Memorandum of Understanding (MOU II) among the towns of Wellfleet and Truro and the National Park Service. Acceptance of the CRP and the signing of MOU II will initiate the development of a Detailed Herring River Restoration Plan during which public input will be solicited as part of the Massachusetts Environmental Policy Act (MEPA) and National Environmental Policy Act (NEPA) environmental review processes.

On behalf of the Herring River Technical Committee,

Gordon Peabody, Chair, November 7, 2007
