ORDINANCE APPROVED BY THE VOTERS ON NOVEMBER 4, 2008:
THE PEOPLE OF THE TOWN OF FAIRFAX ORDAIN AS FOLLOWS: TOWN OF FAIRFAX ORDINANCE AMENDING THE TOWN OF FAIRFAX CODE BY AMENDING CHAPTER 8.18, SECTIONS 8.18.010 THROUGH 8.18.100, TO: (1) REQUIRE THE USE OF RECYCLABLE PAPER AND/OR REUSABLE CHECKOUT BAGS BY ALL SHOPS, STORES, EATING PLACES, FOOD VENDORS AND RETAIL FOOD VENDORS LOCATED IN THE TOWN OF FAIRFAX, AND (2) PROVIDE PENALTIES FOR VIOLATIONS.

CHAPTER 8.18 REQUIRING THE USE OF RECYCLABLE PAPER AND/OR REUSABLE CHECKOUT BAGS BY ALL SHOPS, STORES, EATING PLACES, FOOD VENDORS AND RETAIL FOOD VENDORS LOCATED IN THE TOWN OF FAIRFAX, AND PROVIDING PENALTIES FOR VIOLATIONS

8.18.010 FINDINGS
(a) Globally the production and use of plastic bags has significant environmental impacts each year, including the use of over 12 million barrels of oil, and the deaths of thousands of marine animals through ingestion and entanglement.
(b) Each year, an estimated 500 billion to 1 trillion plastic bags are used worldwide, which is over one million bags per minute, many of which end up as litter each year.
(c) Most plastic carry-out bags do not biodegrade, but instead photo-degrade, which means that the bags break down into smaller and smaller toxic bits that enter the food web when animals mistake those materials for food.
(d) Because plastic does not biodegrade, every piece of plastic that has found its way from California shores to the Pacific Ocean for the past fifty years still remains in the ocean or has been accumulating in the central Pacific gyre and a “Pacific Garbage Patch” now exists made up of floating plastic and Styrofoam debris. The remaining plastic is deposited on local or distant shores.
(e) Plastic fragments act as “sponges” for dangerous compounds such as Dichlorodiphenyldichloroethylene (DDE), Polychlorinated Biphenyl (PCB), and other toxic materials in ocean water. Plastics have been found to concentrate these toxic chemicals at levels of up to one million times the levels found in sea water.
(f) These highly contaminated fragments have been shown to cause hormone disruption in the fish that ingest them, and in the humans that ingest the fish.
(g) Data collected from the State of California’s annual Coastal Cleanup and the 1999 Pilot Litter Study by the Department of Conservation “indicates that disposable retail bags represent some of the most commonly littered items. Plastic bags are easily carried by wind from uncovered trash and dumpsters, vehicles and solid waste facilities including landfills.”
(h) The US Marine Mammal Commission estimates that “257 marine species have been reported entangled in or having ingested marine debris the plastic constricts the animals’ movements and kills marine animals through starvation, exhaustion or infection from deep wounds caused by tightening material. The animals may starve to death as the plastic clogs their intestines preventing them from obtaining vital nutrients. Toxic substances present in plastics are known to cause death or reproductive failure in fish, shellfish and wildlife.”
(i) The Environmental Protection Agency (EPA) reports that over 52,000 tons of disposable bags were used in California in 2000 and less than 50 tons were recovered for recycling.
(j) According to Californians Against Waste, over 19 billion disposable plastic bags are generated in California every year, resulting in over 147,000 tons of waste. An estimated 60% of these bags are generated by grocery stores. These bags represent a disproportionately large share of litter and marine debris according to a 1999 Department of Conservation study.
The economics of recycling plastic bags are difficult to sustain, due to the logistics of sorting, contamination of inks, and the overall low quality of the plastic used in plastic bags, resulting in an estimated rate of 1-3% of all plastic bags being recycled in any way.

Many plastic bags collected for recycling never get recycled but instead get shipped to third world countries where less stringent environmental laws permit cheap incineration which emits toxic chemicals which are known to cause harm and injury to human health.

While there are many serious negative environmental impacts from the use of paper grocery bags as well, nonetheless, 45% of all paper products are recycled while less than 5% of plastics are recycled.

Almost all curbside pickup and recycling centers allow customers to mix paper bags with newspapers for recycling but very few accept plastic bags for recycling.

The proliferation of plastic carry-out bags at retail stores of all kinds is unmitigated, and recent State legislation mandating that grocery stores provide bins for plastic bag recycling (AB 2449) is not expected to have significant impact on reducing the use of plastic bags (and may not improve recycling rates, given the difficult logistics and poor economics of recycling plastic bags).

The EPA estimates that disposal costs for single-use retail bags in the state exceeds $51 million annually.

The nation of Ireland imposed a 17 cent surcharge on carry-out plastic bags which resulted in a 90% decrease in consumption of plastic bags.

State law does not prohibit local ordinances from seeking to remedy this problem by banning plastic bags outright in favor of re-usable cloth bags or paper bags or adding a surcharge for paper-carry out bags.

Alternatives to plastic bags are readily available and include re-usable cloth bags, paper bags, and grocery stores could do more to provide for sale and encourage their customers to use such bags, making plastic unnecessary.

State of California law does not prohibit the adoption, implementation, or enforcement of any local ordinance, resolution, regulation or rule governing curbside or drop off recycling programs operated by, or pursuant to a contract with a city, county or other public agency, including any action relating to fees for these programs.

The Town of Fairfax has a duty to protect the natural environment, the economy, and the health of its citizens.

The Town of Fairfax has adopted town-wide goals of 80% landfill diversion by 2012 and zero waste by 2020.

The expansive usage of plastic shopping bags and their typical disposal creates an impediment to Fairfax’s landfill diversion goals.

Plastic shopping bags are difficult to recycle and currently contaminate, or will contaminate, material that is processed through Fairfax’s recycling and anticipated composting programs.

Plastic shopping bags create significant litter problems in Fairfax’s neighborhoods and also its streets, parks, creeks and open space lands; and

It is the intent of the State Legislature, in enacting Chapter 5.1 (commencing with Section 42250) Part 3 of Division 30 of the Public Resources Code, to encourage the use of reusable bags by consumers and retailers and to reduce the consumption of single-use bags.

Therefore a need exists to adopt regulations to reduce the use of plastic bags in Fairfax.

8.18.020. SHORT TITLE.
This Ordinance shall be entitled the “Plastic Bag Reduction Ordinance.”

8.18.030. DEFINITIONS.
For the purposes of this Ordinance, the following words shall have the following meanings:

(a) “Checkout bag” means a carryout bag intended to convey or protect goods, products or packaged food products provided by a store,
(b) “Store” means a public establishment
devoted exclusively to the retail sale of a
commodity or commodities as defined under
Fairfax Municipal Code section 17.008.020
located within the geographical limits of the
Town of Fairfax.
(c) “Eating place” means a retail
establishment primarily engaged in the sale of
prepared food and drinks for consumption on
the premises as defined under Fairfax
Municipal Code section 17.008.020 located
within the geographical limits of the Town of
Fairfax.
(d) “Shop” means a use devoted primarily to
the sale of a service or a product or products,
but the service is performed or the product to
be sold is prepared in its finished form on the
premises as defined under Fairfax Municipal
Code section 17.008.020 located within the
geographical limits of the Town of Fairfax.
Notwithstanding the foregoing, dry cleaning
establishments are excluded from the definition
of “shop.”
(e) “Food Vendor” means any restaurant or
retail food vendor as defined under the Fairfax
(f) “Retail Food Vendor” means any store,
shop, sales outlet or other establishment,
including a grocery store or a delicatessen,
other than a restaurant, located within the
Town of Fairfax, which sells take-out food as
defined under Fairfax Municipal Code section
17.008.020 located within the geographical
limits of the Town of Fairfax.
(g) “Person” means an individual, trust, firm,
joint stock company, corporation, cooperative,
partnership, or association.
(h) “Recyclable” means material that can be
sorted, cleansed, and reconstituted using the
Town’s available recycling collection programs
for the purpose of using the altered form in the
manufacture of a new product. Recycling does
not include burning, incinerating, converting, or
otherwise thermally destroying solid waste.
(i) “Recyclable Paper Bag” means a paper
bag that is 100% recyclable overall and
contains a minimum of 40% post-consumer
recycled content.
(j) “Reusable Bag” means a bag with handles
that is specifically designed and manufactured
for multiple reuse is either made of cloth or
other machine washable fabric.

8.18.040 MANDATORY USE OF
RECYCLABLE OR REUSABLE CHECKOUT
BAGS.
(a) All stores, shops, eating places, food
vendors and retail food vendors, shall provide
only the following as checkout bags to
customers: recyclable paper bags, or reusable
bags.
(b) Violation of the requirements set forth in
subsection (a) shall subject stores, shops,
eating places, food vendors and retail food
vendors to penalties set forth in Section
18.18.060.
(c) Nothing in this section shall be read to
preclude stores, shops, eating places and retail
food vendors from making reusable bags
available for sale to customers.

8.18.050 IMPLEMENTATION.
The Town Council, after a public hearing, may
adopt and may amend guidelines, rules,
regulations and forms to implement and
enforce this Ordinance.

8.18.060 NOTIFICATION, ENFORCEMENT
AND PENALTIES.
(a) The Town of Fairfax shall provide a copy
of this ordinance to every new store, shop,
eating place, food vendor and retail food
vendor that applies for a business license in
the Town of Fairfax. Thirty days before this
ordinance becomes operative, the Town shall
mail or deliver a copy of it to every store, shop,
eating place, food vendor and retail food
vendor within the Town of Fairfax.
(b) The Town Manager or his/her designee
will have primary responsibility for enforcement
of this Chapter. The Town Manager or his/her
designee is authorized to promulgate
regulations and to take any and all other
actions reasonable and necessary to enforce
this Chapter, including, but not limited to,
entering the premises of any affected retail store to verify compliance.

(c) Any person who violates this Ordinance shall be guilty of an infraction. If charged as an infraction, upon conviction thereof, said person shall be punished by (1) a fine not exceeding $100.00 for a first violation, (2) a fine not exceeding $200.00 for a second violation within the same year, and (3) a fine not exceeding $500.00 for each additional violation within the same year.

(d) In the event that the Town adopts an ordinance creating a procedure for imposing and reviewing Administrative Penalties pursuant to California Government Code Section 53069.4, the Town may impose Administrative Penalties for violation of this Ordinance as follows: (1) in an amount not exceeding $100.00 for the first violation, (2) in an amount not exceeding $200.00 for the second violation in the same year, and (3) in an amount not exceeding $500.00 for each subsequent violation in the same year.

(e) The Town Attorney may seek legal, injunctive, or other equitable relief to enforce this Ordinance.

18.18.070 OPERATIVE DATE.
This Ordinance shall become operative six (6) months after its effective date.

18.18.080 NO CONFLICT WITH FEDERAL OR STATE LAW.
Nothing in this Ordinance shall be interpreted or applied so as to create any requirement, power or duty in conflict with any federal or state law.

18.18.090 UNDERTAKING FOR THE GENERAL WELFARE.
In undertaking the implementation of this Ordinance, the Town is assuming an undertaking only to promote the general welfare. It is not assuming, nor is it imposing on its officer and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.
