### Customer Focus

#### Projacs leverages Collaborative Project Management through ProjectXnet Cloud Hosting Services

Projacs International, a large Pan-Arab project management firm headquartered in Bahrain, is comprised of 21 offices across the world. Delivering projects in 24 different countries requires the corporation to coordinate hundreds of staff across a number of borders, a task that demands sophisticated and reliable technological capabilities.

In 2004, Projacs came to learn of The Cram Group and their capabilities, and they felt secure that despite the geographic distance between them, The Cram Group could provide superior Microsoft Exchange e-mail for over 600 hundred users, as well Internet communications. After a smooth transition to The Cram Group's hosting services, Projacs reaped the benefits immediately.

In fact, the switch was so successful, Projacs turned to The Cram Group for additional IT assistance.

### Technology Innovation

The Cram Group recognized early on the power of Office Business Applications (OBA's) combined with Prolog Manager and the full potential for this. During the last year, TCG followed on by developing The OBA Store platform and a full menu of high quality OBAs compatible with MS Office 2003, 2007 and 2010 for Prolog Converge users.
