

# 3-D Design & Print Classes

3D Design and Print skills are becoming a demand in today's tech driven society. Explore this career pathway while having fun on the computer. Participants will gain both competence and confidence.

## Participants will:

Learn to utilize *3D Computer Assisted Design Software* to create and print 3D objects

Showcase/Unleash their creativity by taking an idea through the design process and transforming it into a *3D object*

Gain confidence in their talents and build resiliency by understanding that *“Failure is not Final”*

With *positive support* and modeling from the instructors, engage in problem solving and *critical thinking skills* needed for any career

At the end of the course, students will have a *portfolio* of designs to showcase their new skills and talents

## Course Instructors:

Mr. Sam Son and Mr. Mitchell Whittington have their M.Ed. in Special Education, have been teaching and working with students on the spectrum for over 8 years, and have experience teaching 3D Design and Print courses to youth with individualized learning profiles. They are excited to be providing an opportunity for those on the autism spectrum to explore this new STEM field.

## Time of Class and Dates:

10:00 AM– 12:00 PM, Saturday mornings  
April 15, April 22, April 29, May 6, May 13, May 20, May 27, June 3

## Location:

Technology Lab at PHILLIPS Programs  
7010 Braddock Road, Annandale, VA. 22003

## Class Geared towards:

High school youth and young adults on the autism spectrum

## Prerequisites:

Working towards a high school diploma or have attained a High School Diploma

## Cost:

\$350

Credit Cards accepted or check made out to *PHILLIPS Programs*, due before the first day of class
