

### THE CONCEPT

---

Each couple provides their own signature drink, along with any coordinating music and/or video to create an experience and set their mood.

### THE GUIDELINES

---

Everyone brings their own drink, ingredients, and barware.

Bring glasses (plastic or whatever you have) for the total number of people attending.

Bring along an appetizer or snack to compliment your cocktail (as little as peanuts). No oven foods.

Each couple gets one hour to delight their hosts.

The sound system, television and DVD player will be at your disposal.

Libations will be prepared in the kitchen and enjoyed in the living room.

There will be a 15 minute intermission in between each soiree for clean-up/set-up, so that you may enjoy each hour to it's fullest.

Shh! Please keep your idea a secret. It'll add more excitement to the evening. If by chance there are identical drinks, we're sure the experience won't be the same.

No wine. No champagne.

All ice will be provided by the host.

Awards will be given for the most innovative drink and best overall experience!
