I. ADVERTISEMENT FOR SERVICES

The University of California, Riverside (UCR) requests that Architects submit written Statements of Qualifications for providing architectural services for the following proposed project:

Multidisciplinary Research Building 1 Project

Project 958025

Anticipated Construction Cost: \$98,000,000 - \$115,000,000

The University of California, Riverside, will select a Design Professional to be the University's Master Architect for Multidisciplinary Research Building 1, which will be delivered via the Design-Build delivery method. During Phase 1, the Design Professional will provide Programming services, develop Bridging Documents, as well as provide support throughout the Design-Build procurement (Competition) process for this project. Subsequent phases of work may include (but not be limited to) transition meetings with winning Design-Build entity, peer review of milestone design & construction documents (developed by Design-Builder), review of key submittals, and construction administration support as-needed.

The selected entity must be able to start work immediately.

Upon identification of the first ranked firm, the University will commence negotiations with the selected firm for the full scope of services and will assign the University of California's Professional Services Agreement (PSA). Upon anticipated UC Regents action in September 2015, the University intends to execute the Master Architect Agreement for the remaining services. (The scope indicated in the UCoP template agreement will be modified accordingly to reflect the project-specific scope.)

The Design Professional selected under this Advertisement will not be the Executive Architect for the project; the Executive Architect will be the Design-Builder. The Design Professional selected under this Advertisement will not be eligible to participate on a team in the subsequent Design-Build selection (competition) phase.

The complete RFQ packet will be available (in electronic format only) beginning **Monday, July 20, 2015, at 10:00 AM**. To receive a copy of the RFQ Documents, email the RFQ Administrator listed below:

Carmen Long
UCR Contracts Administration
Email: carmen.long@ucr.edu

Or you may visit: <http://pdc.ucr.edu/business/consultants.html>

It would be highly appreciated, but is not mandatory, if interested firms would provide notification of their interest to submit Qualification Documents for this project to the RFQ Administrator via email, by 5:00 PM, **July 27, 2015**. This will allow the University to ensure that interested parties receive all relevant communications.

II. PROJECT INFORMATION AND REQUIREMENTS

A. PROJECT BACKGROUND

The University of California, Riverside (UCR) is actively hiring 150 new faculty members in the next three years. To support this crucial need, UCR will be constructing a new research facility, the Multidisciplinary Research Building 1 (MRB1), to accommodate the planned faculty growth, and to expand UCR's research capability.

Areas for expansion of research reflect priorities as identified in the *UCR 2020: The Path to Preeminence* strategic plan, span colleges and departments, involving investigators from Bourns College of Engineering, College of Natural and Agricultural Sciences, School of Medicine, and College of Humanities, Arts and Social Sciences. Examples of new research clusters include: biomedical informatics, neurosciences, systems biology, pathophysiology, and aging and life span.

In order to accommodate this research, as well as the addition of new faculty members, the campus will need additional research space. The project is envisioned to be multidisciplinary to support the anticipated collaboration among researchers. Parallel and collaborative investigative efforts can allow for new and innovative research strategies that can produce results not otherwise achievable by traditional research approaches.

Creating a collaborative environment that supports these partnerships is therefore a critical component to the success of multidisciplinary research. Furthermore, this environment must affirmatively promote and enable the specific scientific and technological processes that are unique to the different disciplines, as well as provide the ability to adapt to research requirements that will emerge over the next several decades.

B. PROJECT DESCRIPTION

UCR projects that the new building will provide 130,000 to 150,000 gross square feet of new construction. The space program will incorporate the following types of spaces:

- Wet, dry, and computational laboratories. Wet research laboratories will be designed as Biosafety Level 2.
- Core laboratory support facilities that accommodate shared equipment and are incorporated throughout the building to address specific research support requirements. Support facilities include a barrier vivarium containing animal holding areas, procedure rooms, and related vivarium support spaces.
- Offices, scholarly activity, and conference rooms.
- Computational resources that support the development of image processing and mathematical modeling are essential for multidisciplinary efforts that often involve large quantities of data. This requires computational support areas to compile, analyze and manage massive data sets.

A modular planning principle will be utilized to establish a building framework that provides flexibility that is essential for collaborative research.

C. PROJECT LOCATION

The selected building site is within the zone indicated in Attachment A. UCR seeks to optimize the site configuration to allow for another future research facility to share the site envelope identified. The proposed use is consistent with the UCR 2005 Long Range Development Plan (LRDP) Amendment 2 (2011).

D. SCOPE OF SERVICES

The University intends that the project resulting from the Design-Build process will optimize the value received – in terms of capacity, capability and quality – from a fixed maximum investment of fiscal resources.

The University intends to award a PSA for initial services, which at the University's discretion will be transitioned to a Master Architect Agreement pending Regental approval. At this time, the University envisages that the Bridging Phase will consist of work scope in three specific areas: 1) Program Definition, 2) Design Criteria, and 3) Technical Criteria, all to be developed concurrently within the defined timeframe. Master Architect's work plan should address this approach. The Master Architect's scope of services will entail the following:

- Develop a functional program based on the University's research goals and the application of contemporary technology, standards and best practices; (as
- Generate comprehensive design and technical performance criteria, responsive to the University's program and budget for the project, taking into consideration that the building's principle researchers are not yet identified;
- Develop parameters to optimize building configurations and site relationships;
- Develop conceptual design 'test-fit' options responsive to the programmatic, design, and technical goals (development of these options is intended solely for identification of key parameters to be incorporated in the Design & Technical Performance criteria);
- Generate Bridging Documents that clearly communicate Program, Design and Technical Performance criteria utilizing graphic, quantitative and written descriptions;
- Develop and incorporate into the Bridging Documents a structured system for verification of design & technical parameters throughout the Design-Build design documentation and construction phases;
- Provide support throughout the Design-Build procurement (competition) process, including responding to questions during the process, and review and evaluation of the Design-Build submittals;
Provide peer review services throughout the Design-Build process, within a scope to be determined by the University.

The proposed Project Budget is targeted at \$150M, with a Total Construction cost of \$98M - \$115M, with a target building area of up to 150,000 GSF.

E. SCHEDULE

Bridging Phase work would proceed on the following schedule:

- Consultant selection: 3 – 4 weeks
- Program Definition, and Criteria Development: 12 – 16 weeks

Anticipated schedule for subsequent phases:

- Design Phases (D-B competition and Design Development): November 2015 - May 2016

- Construction Documents: May 2016 – October 2016
- Construction: Summer 2016-Fall 2018

F. JOINT VENTURES/ASSOCIATIONS

If the Master Architect proposes to consist of an association or joint venture, then the response to this RFQ must address the qualifications of each of the respective firms forming the association/joint venture. The response of the proposed joint venture or association to this RFQ must be a fully integrated and coherent document, clearly describing the services and staffing model proposed under the joint venture or association.

G. CONSULTANTS

Architectural firms submitting for this RFQ shall recommend sub-consultants that would form the proposed Master Architect team. Sub-consultant disciplines shall include: Laboratory Planner, Structural, Mechanical, Electrical, Plumbing, Civil, Telecom/Data, Audio-Visual, and Landscape. The University will review the proposed sub-consultant team. Final selection of sub-consultants will be determined by the University in consultation with the selected Master Architect. Sub-consultants serving on the Master Architect’s team will not be eligible to participate in the ensuing competitive Design-Build process.

The University has engaged a cost consultant under a separate contract, to provide cost analysis and reconciliation throughout the Bridging phase. The Bridging team remains responsible for development of program, design and technical performance criteria which are attainable within the University’s budget.

If the University determines that the Consultant has failed to perform in accordance with the terms and conditions of this Agreement, the University may terminate all or part of the Agreement for cause. This termination shall become effective if the Consultant does not cure its failure to perform within 10 days (or more, if authorized in writing by the University) after receipt of a notice of intention to terminate from the University specifying the failure in performance. If a termination for cause does occur, the University shall have the right to withhold monies otherwise payable to the Consultant until the services under this Agreement are completed. Should the amounts withheld exceed the amounts deducted, the balance will be paid to the Consultant upon completion of the services to be provided under this Agreement. If the costs, expenses, or other damages incurred by the University exceed the amounts withheld, the Consultant shall be liable to the University for the difference.
 2. University may terminate this Agreement for convenience at any time upon written notice to Consultant, in which case University will pay Consultant for all services performed and all expenses incurred under this Agreement up to and including the effective date of termination less any costs, expenses or other damages due to the failure of the Consultant to properly perform pursuant to the Agreement. Compliance with these sections is required by this Contract. The Work under this Contract is subject to compliance monitoring and enforcement by the State of California Department of Industrial Relations. References to Covered Services hereinafter shall mean services performed pursuant to this Agreement that are covered by the aforementioned provisions as implemented by the State of California Department of Industrial Relations.
3. The State of California Department of Industrial Relations has ascertained the general prevailing per diem wage rates in the locality, if any, listed in the written authorization for the performance of construction, alteration, demolition or repair work as defined in Section 1720 of the State of California Labor Code for each craft, classification, or type of worker required to perform the Covered Services hereunder. A schedule of the general prevailing per diem wage rates will be on file at University's principal facility office and will be made available to any interested party upon request. By this reference, such schedule is made part of this Agreement. Consultant shall pay not less than the prevailing wage rates, as specified in the schedule and any amendments thereto, to all workers employed by Consultant in the execution of the Covered Services hereunder. Consultant shall cause all subcontracts or subconsultant agreements to include the provision that all subcontractors or subconsultants shall pay not less than the prevailing wage rates to all workers employed by such subcontractor or subconsultants in the execution of the Covered Services hereunder. The amount of this penalty shall be determined by the Labor Commissioner pursuant to applicable law. Such forfeiture amounts may be deducted from the Consultant fee. Consultant shall also pay to any worker who was paid less than the prevailing wage rate for the work or craft for which the worker was employed for any portion of the Covered Services hereunder, for each day, or portion thereof, for which the worker was paid less than the specified prevailing per diem wage rate, an amount equal to the difference between the specified prevailing per diem wage rate and the amount which was paid to the worker.

1. Consultant and all subcontractors or subconsultants shall keep an accurate payroll record, showing the name, address, social security number, job classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, or other employee employed in connection with the Covered Services hereunder. All payroll records shall be certified as being true and correct by Consultant or subcontractors or subconsultants keeping such records; and the payroll records shall be available for inspection at all reasonable hours at the principal office of Consultant on the following basis:

The public shall not be given access to such records at the principal offices of Consultant or subcontractors or subconsultants. Any copy of the records made available for inspection as copies and furnished upon request to the public or any public agency by University shall be marked or obliterated in such a manner as to prevent disclosure of an individual's name, address, and social security number. The name and address of Consultant awarded the Agreement or performing the Agreement shall not be marked or obliterated.
2. Consultant shall file a certified copy of the payroll records with the entity that requested the records within 10 days after receipt of a written request. Consultant shall inform University of the location of such payroll records for the written authorization, including the street address, city, and county; and Consultant shall, within 5 working days, provide notice of change of location of such records. In the event of noncompliance with the requirements of this Paragraph or with the State of California Labor Code Section 1776, Consultant shall have 10 days in which to comply following receipt of notice specifying in what respects Consultant must comply. Should noncompliance still be evident after the 10-day period, Consultant shall forfeit to University, as a penalty, \$100 for each day, or portion thereof, for each worker, until strict compliance is accomplished. Such forfeiture amounts may be deducted from the Consultant fee.

The

committee will issue a certificate fixing the number of apprentices or the ratio of apprentices to journeypersons who shall be employed in the craft or trade on the Covered Services hereunder. The ratio will not exceed that stipulated in the apprenticeship standards under which the joint apprenticeship committee operates; but in no case shall the ratio be less than 1 hour of apprentice work for every 5 hours of journeyperson work, except as permitted by law. Consultant or subcontractors or subconsultants shall, upon the issuance of the approval certificate in each such craft or trade, employ the number of apprentices or the ratio of apprentices to journeypersons fixed in the certificate issued by the joint apprenticeship committee or present an exemption certificate issued by the Division of Apprenticeship Standards.

4. "Apprenticeship craft or trade," as used in this Paragraph, shall mean a craft or trade determined as an apprenticeship occupation in accordance with rules and regulations prescribed by the Apprenticeship Council.
5. If Consultant or subcontractors or subconsultants employ journeypersons or apprentices in any apprenticeship craft or trade in the locality, if any, listed in the written authorization for the performance of construction, alteration, demolition or repair work as defined in Section 1720 of the State of California Labor Code, and there exists a fund for assisting to allay the cost of the apprenticeship program in the trade or craft, to which fund or funds other contractors in the locality so identified are contributing, Consultant and subcontractors or subconsultants shall contribute to the fund or funds in each craft or trade in which they employ journeypersons or apprentices on the Covered Services hereunder in the same amount or upon the same basis and in the same manner done by the other contractors. Consultant may include the amount of such contributions in computing its compensation under the Agreement; but if Consultant fails to do so, it shall not be entitled to any additional compensation therefore from University.
6. In the event Consultant willfully fails to comply with this Paragraph VI.D, it will be considered in violation of the requirements of the Agreement.
7. Nothing contained herein shall be considered or interpreted as prohibiting or preventing the hiring by Consultant or subcontractors or subconsultants of journeyperson trainees who may receive on-the-job training to enable them to achieve journeyperson status in any craft or trade under standards other than those set forth for apprentices.

E. WORK DAY

1. Consultant shall not permit any worker providing Covered Services to labor more than 8 hours during any 1 day or more than 40 hours during any 1 calendar week, except as permitted by law and in such cases only upon such conditions as are provided by law. Consultant shall forfeit to University, as a penalty, \$25 for each worker employed in the execution of this Agreement by Consultant, or any subcontractors or subconsultant, for each day during which such worker is required or permitted to work providing Covered Services more than 8 hours in any 1 day and 40 hours in any 1 calendar week in violation of the terms of this Paragraph or in violation of the provisions of any law of the State of California. Such forfeiture amounts may be deducted from the compensation otherwise due under this Agreement. Consultant and each subcontractor or subconsultant shall keep, or cause to be kept, an accurate record showing the actual hours worked each day and each calendar week by each worker employed under this Agreement, which record shall be kept open at all reasonable hours to the inspection of University, its officers and agents, and to the inspection of the appropriate enforcement agency of the State of California.

F. PATIENT HEALTH INFORMATION

1. Consultant acknowledges that its employees, agents, subcontractors, consultants and others acting on its behalf may come into contact with Patient Health Information ("PHI") while performing work at the Project Site. This contact is most likely rare and brief (e.g. walking through a clinic where patient files may be visible, overhearing conversations between physicians while working or touring a hospital, noticing a relative or acquaintance receiving treatment in a University facility, etc.). Consultant shall immediately notify University Representative of any such contact. Any and all forms of PHI should not be examined closer, copied, photographed, recorded in any manner, distributed or shared.
