THE
TIMELINE
OF YOUR
WEDDING
DAY

POINTS TO CONSIDER WHEN PLANNING A WEDDING DAY TIMELINE

Ceremony

Work with officiant to determine exactly how long you'd like the ceremony. Most are between 30-45mins. It's up to you!

Congratulations

People want to share the love and hug you, this can take 15-20mins after ceremony for around 120 guests

Make up + Hair

Ask the MUA how long exactly they will need, and add 10 mins.

Travel time

Are there any big events on, any road works, how much traffic will there be? It also takes time to get in and out of cars. Estimate it, and add 5 mins.

Family Photos

Yes, it's like herding cows, it takes time. On average 20-30 mins for 10 different combo's. Some families are worse than others, what are yours like?

POINTS TO CONSIDER WHEN PLANNING A WEDDING DAY TIMELINE

Food

Is a big deal and if you're late to the reception can be ruined.
Communicate with the caterers so everyone know what's what.

Dancing

People want to party with you, don't leave it till too late in the night!

Location Photos

How many people in the bridal party, how rowdy are they. How many locations are you going to. As a guide, 2 locations, 4-6 in the bridal party allow 1 and a half hours. You won't be taking photos all that time, but you'll want time to have a breather and enjoy the day.

Speeches

Through out the night or all in one hit? If you are having them through out, then again, work with the caterers, closely.

Lastly

Add 5 mins here and there through out the day. Don't rush any stage. Allow time to enjoy all of the moments.
