

1

wool dyed with madder root or use as is

2

put 2 chairs back to back and wind the wool around the chairs then rewind it into a ball

3

find a forked branch that inspires you.

4

tie the wool then weave it in and around the branches to form the warp. Then when you have reached the top, tie it off.

5

then the weft is next (the vertical thread)

thread the end of the wool into a safety pin to make it easier to weave and off you go.

push down as you go to keep it tight
