High Hampton Receives Positive Comprehensive Results from CEQA-compliant Environmental Study

High Hampton Holdings Corp. (CSE: HC)(FSE: 0HCN) ("**High Hampton**" or the "**Company**") is pleased to announce that it has received favourable results on the CEQA-compliant ("California Environmental Quality Act") environmental study for its 10.8 acre land parcel within the Coachella cultivation zone. The study represents the final stage in the environmental approval process as part of the ongoing application for a Conditional Use Permit ("CUP") for the CoachellaGro operation in the Coachella cultivation zone.

CEQA is California's broadest environmental law and provides a guide during the issuance of permits or approval of projects. The Environmental Study covers the scope initially established by the City of Coachella and follows standard practices for CEQA reporting.

Overseen by Infrastructure Engineers Inc. and prepared by San-Bernadino-based Tom Dodson & Associates, this report is much more comprehensive than the previously announced positive Phase I Environmental Site Assessment ("ESA" - please see [press release from December 15, 2017](#)) and encompasses categories of the Environmental Checklist, Project Description, Construction Scenario, Lead Agency Checklist, and Evaluation of Environmental Impacts. In summary, the report states that no adverse conditions were found that could negatively impact the CUP application process.

David E. Argudo, CEO of High Hampton, commented:

"We welcome the positive results of this final environmental study during our CUP application process and are now awaiting comments from the city on the subject matter and in preparation for the final project presentation."

About High Hampton Holdings

High Hampton Holdings is a cannabis sector investment company focused on opportunities in California. The Company's wholly owned subsidiary, CoachellaGro Corp., is a California corporation focused on the development of a 10.8-acre property situated in the proposed cannabis industrial park located in Coachella, California. CoachellaGro is in the application process for a conditional use permit for development of a full-service production facility in order to serve third party state licensed medical marijuana operators. The City of Coachella has been progressive in setting up city ordinance that sets aside 90 acres within which will be a legal framework for the cultivation, production, extraction and transportation of cannabis. The complex is intended to contain all the necessary; security, infrastructure, equipment, labour and skilled management, supplies and ancillary services for a closed loop production process flow.

Stock Exchanges

High Hampton trades in Canada, ticker symbol HC on the CSE, and in Europe, ticker symbol OHCN on the FSE. Neither the CSE, nor the FSE has approved nor disapproved the contents of this press release. Neither the CSE, nor the FSE accepts responsibility for the adequacy or accuracy of this release.

Marijuana Industry Involvement

Canadian listings (CSE) will remain in good standing as long as they provide the disclosure that is rightly required by regulators and complying with applicable licensing requirements and the regulatory framework enacted by the applicable state in which they operate. Marijuana is legal in certain states however marijuana remains illegal under US federal law and the approach to enforcement of US federal law against marijuana is subject to change. Shareholders and investors need to be aware that adverse enforcement actions could affect their investments and that High Hampton's ability to access private and public capital could be affected and or could not be available to support continuing operations.
