

**Cyclops
PowerBeam**
\$700-\$850

A pretty powerful setup. You can still find them online even though not part of the new product line.

Nice to have the bike move under you. This really benefits many cyclists

Elite Novo Force
\$219

For the price, a solid unit. No fuss, few frills

Wahoo Kickr
\$1199

I think the best high end option. A lot of bang for the buck.

Compatible with a number of apps and 3rd party devices. Very smooth ride feel

Cyclops Jet Fluid Pro
\$399

Probably the best value. Simple. Good resistance. Reasonably quiet. Overall just a good package. Almost identical to one I use in my fit studio
