## **GET DIRTY IN MANOA!**

**Restore Manoa Falls Trail**  
**8:30am - 2pm**

This project is a collaboration between the State of Hawaii Department of Land and Natural Resources (DLNR) and the Sierra Club, Hawaii Chapter - Oahu Group. The Manoa Falls Trail is one of the most highly used trails on Oahu, averaging about 300 visitors per day (up to 800 per day on holiday weekends). This trail has greatly deteriorated in some areas from high traffic and water damage.

For this project, we will be working to help restore Manoa Falls Trail to make it safer, easier to hike and minimize soil erosion and runoff into Manoa Stream.
