

Keep Your Set Safe!

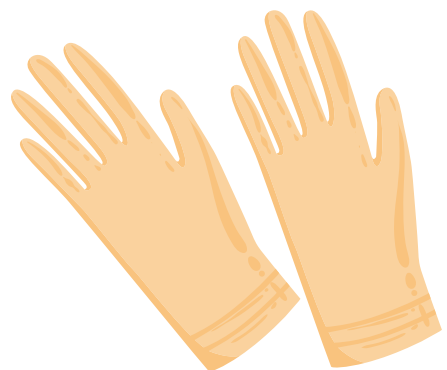

Use Best Practices

Shoot with the **fewest number of performers and crew possible**

Toys should **not be shared** between performers - and **cleaned thoroughly** after filming

Use **barriers** to prevent fluids that might contain the virus from being exchanged

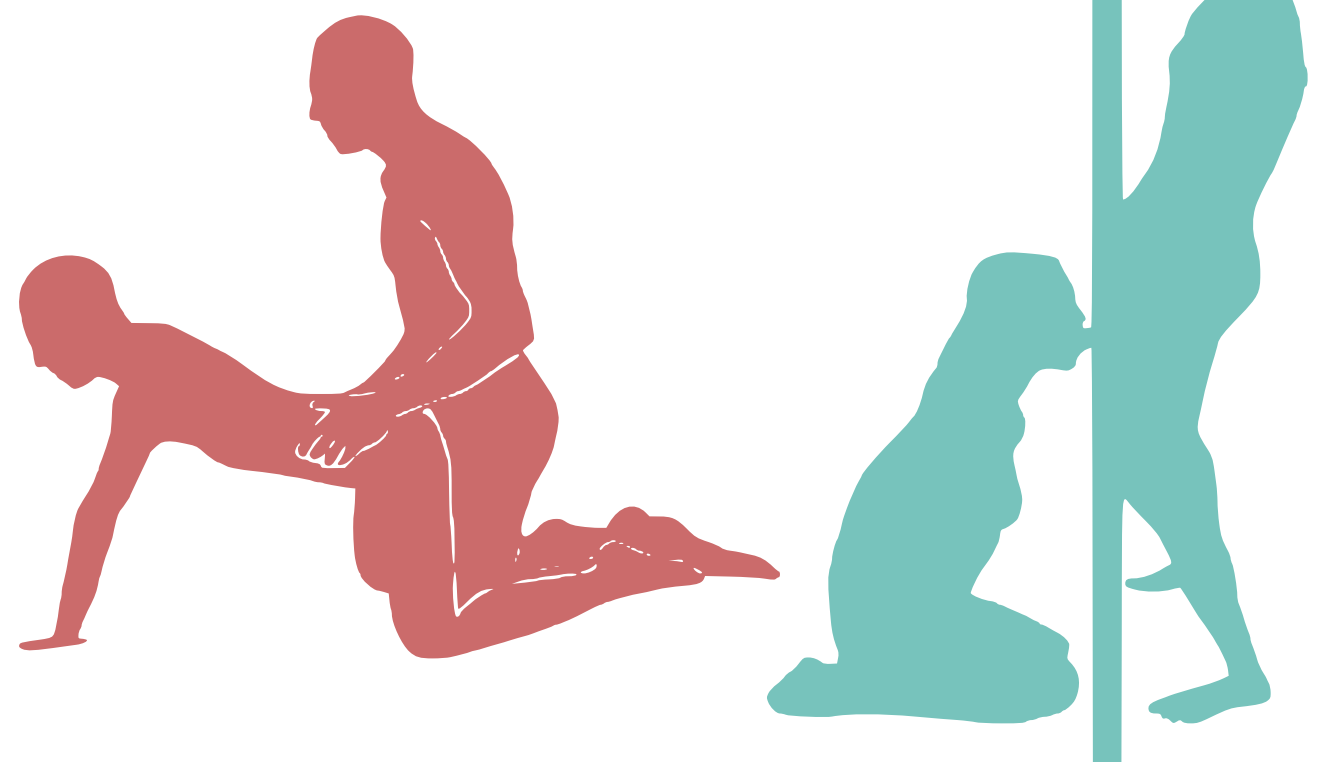

Avoid **mucous membrane** contact like kissing, spitting in mouth, face touching, and rimming

Outdoor locations pose less of a risk than shooting indoors

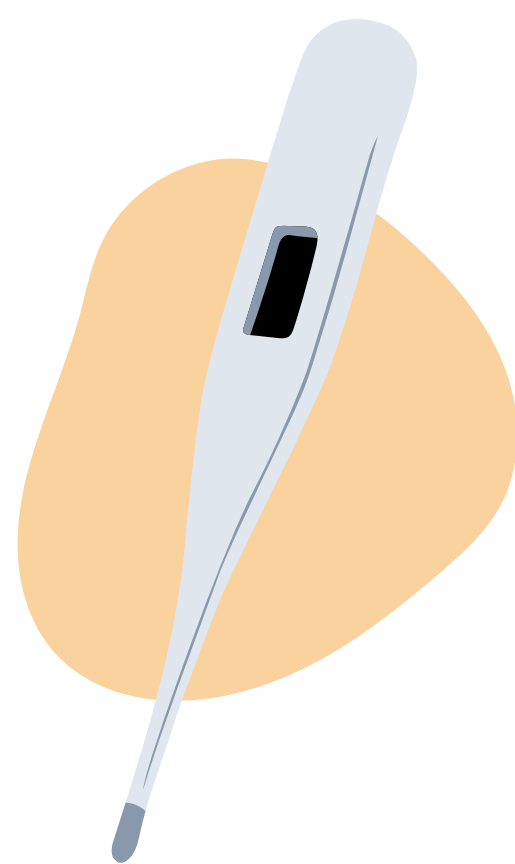

Reduce Face to Face Proximity

Use positions where performers are **not face to face**

Stay home if...

- You are feeling sick
- You have a sick family member at home

Take care of your emotional and mental well-being

Outbreaks are a stressful and anxious time for everyone. We're here to support you!
