

HOSPITAL SESSIONS

The Tiny Light Foundation now provides an in-hospital session as well as an at-home session once your Tiny Light is ready. That way, no family will feel as though they are using up their session while in the hospital. These special families will also receive the relaxed, customary family photos that we all dream of and desire.

MEDICAL PROFESSIONALS

Since the idea of photography during this stressful time may not occur to families, TTLF depends on people like you and your staff to share information about this *free service*. Taking photos is one of the elements to the job but preserving the precious moments is what makes a true passionate photographer.

TTLF asks that you partner with us in our mission. When you are faced with a parent or family in this position, please think about The Tiny Light Foundation and contact the organization. Together, we may be able to give the gift of memories to families faced with these difficult times.

We, at The Tiny Light Foundation, feel that helping families create these memories is very important. Each of us has somehow been touched by a family member or friend who has had to endure a life-altering experience, and looking back, we know the importance of these special moments. So, whether you have a child or know a child who would benefit from a professional photo session, please know that we are here to help. Each session is specially designed and caters to your child and your family. Each session is free of charge, and you are provided with a high resolution disk of edited photos, ready for printing, and four sheets of professional quality prints. Our photographers are willing to travel to your home, the hospital or school. We want to capture a special moment; the day in the life of you and your child.

The Tiny Light Foundation is a Canadian Charity that provides the gift of professional photography to children with life-altering medical conditions, all at absolutely *no charge* to the families. Since the idea of photography during this stressful time may not occur to families

HELPING OUR TINY LIGHTS SHINE, ONE PHOTO AT A TIME

ABOUT US

The Tiny Light Foundation was established in December 2010 by two like-minded photographers, Melissa DePape & Billie Depatie. Taking photos is one of the elements to the job but preserving the precious moments is what makes a true passionate photographer. At times we can take Photography for granted and the gift it offers of freezing time at 1/100th a second. Over the past year and half, between the Tiny Lights, their families and the photographers who helped us become who we are today, over 500 hundreds of lives have been touched by this Foundation. Although we are just starting out, we have endless ideas, big plans and even bigger hopes for the future.

From a simple idea to an official Charity organization, The Tiny Light Foundation is the first charitable organization of its kind in Canada.

Our mission is to provide and capture memories that will help provide a family with one less thing to worry about. In the mist of dealing with doctor appointments, specialist appointments or just the daily routine of medicines, rushing here to there for weights, checkups, and the many other things we deal with in everyday life. A lot of the times, getting photos taken gets put on the back burner because of a lack of time and, sometimes, funding. When we look back, we want to remember, and even though you may never forget what you and your child have gone through, we always want more; we need the memories to last forever.

WHAT FAMILIES ARE SAYING

Thank you so much for giving us this opportunity to get professional photos done when Elizabeth is still healthy. We will cherish these photos, in hopefully, our many years to come!

...together made our daughter a truly special Tiny Light. his experience has been eye opening for everyone involved, I love seeing the new stories and beautiful photo's of other Tiny Lights. Keep up the FANTASTIC work ladies!

WHAT PHOTOGRAPHERS ARE SAYING

It is hard to put in words how much our work with the Tiny Light Foundation inspires us. We are always so touched by the amazing families we get to meet through the Foundation. The strength, love and joy we witness in these families leaves us smiling for weeks afterwards. We feel very lucky to work with the Tiny Light Foundation.
