Profile

Jodi Cole, MS, OTR/L, has been practicing as an OT since 2008. She works at Illinois Bone and Joint Institute in Libertyville. She treats a variety of surgical and non surgical patients using orthotic/splinting interventions, manual therapies, functional exercises, and ergonomic modifications to assist patients in gaining the highest level of independence. Jodi is passionate about providing individualized programs to promote optimal patient outcomes. Jodi strongly believes in IBJI's collaborative care model and enjoys working closely with physicians and their staff to provide optimal, patient-focused care. Previously Jodi worked at University of Chicago Hospital and Lutheran General Hospital. Jodi likes spending her free time being active and spending time with family and friends.

Education

- Masters of Occupational Therapy, Rush University, IL,
- Bachelors of Human Development and Family Studies, University of Illinois at Urbana/Champaign, IL
