Work Experience

New York City Department of Transportation

Green Infrastructure Planner
May 2013 – present

- Manages and develops green infrastructure projects in the right-of-way, including several multi-agency contracts as well as in-house programs
- Develops mapping and technology projects and the development of tools for DOT's Green Infrastructure and Capital Planning units, advancing and streamlining design review
- Collaborates in capital street reconstruction development and design review, and climate resiliency planning

Hester Street Collaborative

Community Planning and Design Intern
Feb – May 2013

- Developed zoning analysis and massings for potential developments in Queens and Manhattan
- Built and maintained special event and main organization Wordpress sites

Service Employees International Union Local 32BJ

Member Activity Coordinator
Sep 2009 – Feb 2013

- Coordinated data-driven member development programs and presented high-level data analysis for contract campaigns, community organizing, communications, and field operations
- Led trainings and staff development across 12 different offices in several states
- Led implementation of member and shop steward activity tracking program, which grew from hundreds of member actions tracked to hundreds of thousands of actions tracked per year
- Analyzed geospatial data for contract and political campaigns, and white paper research.

Projects and Coursework

DOT Capital Prioritization Program

Ongoing

Conducting geospatial analysis and data organization for the agency's ongoing capital planning and project prioritization, analyzing hundreds of multi-million dollar capital street reconstruction projects

TIGER VI: Vision Zero Capital Program

Spring 2014

As part of a four person team, contributed writing, graphics, layout and design work to DOT's \$25 million grant application to the US Dept of Transportation's TIGER program for the city's Vision Zero capital program. The full amount was awarded to the city in September 2014

Pratt Land Use & Urban Design Studio

Fall 2012

Collaborated in six-person design team to develop community-oriented urban design proposals for large site in Manhattan and the Bronx along the Harlem River. Teaching assistant for semester long studio. Studio work was presented to APA NY Metro chapter Spring 2013

SEIU 32BJ Mid Atlantic Project

Spring 2012 – Winter 2013

Researched and presented demographic and political data to support the efforts of a multi-state, collaborative community organizing project with several local and regional organizing groups
