

Hacked Characters

This booklet is to be used with the *Hacked* film and activity pack

Shelly and Martina

Shelly and Martina do everything together, they love swimming, and they ride their bikes everywhere. The girls also really like looking facebook, their older sisters made accounts for them. Sometimes they forget their passwords and have to humbug their sisters to make them another account.

Emma

Emma and Nampitjimpa are best friends. Emma likes helping out at youth program, and often wins a prize at disco for best dancer! Soon, Emma will be going away to boarding school with Nampitjimpa for the first time. She is a bit worried about feeling lonely when she goes away but is glad she will be able to share photos on facebook with her family and friends.

Lucy

Lucy is Emma's sister. Lucy speaks five languages and likes to do interpreting and translating work. Lucy worries for fighting and feels sad when people don't listen to each other. She like to try and help her family and friends sort out their worries. Lucy is a good leader.

Nampitjimpa

Nampitjimpa is fourteen years old, and she is back from boarding school for the school holidays. At school she loves doing art, and catching up with all her friends from all around Australia. At school they had some troubles with some girls hacking into her account, and Nampitjimpa was worried it might mean trouble back home. This time she wants to sort out what happened, and wants to make sure she remembers to logout every time!

The girls

The girls know all about how to look after themselves online. They love their iPads and their mobile phones, and they are always getting new songs for disco and to listen to when they are cruising around. The girls are really good people for kids to talk to if they don't know how to look after themselves online.

The Youth Worker

This is Nangala the youth worker. Nangala loves softball, and taking the girls hunting. Her favourite bushfood is Kipara, bush turkey. She also likes opening the drop in centre, because they have new computers there and the internet. Nangala likes to use facebook and airG to keep in touch with family and friends. Sometimes she sees swearing and arguments online and she worries because little things can grow and become big things. Nangala has been a youth worker for a long time and she is a great person for young people to talk to if they are worried about troubles online.
