

Advancing Wisconsin Archeology for over 100 years

Wisconsin Archeological Society 2018 Spring Meeting Saturday April 7th 10 AM - 3 PM

Oshkosh Public Museum
1331 Algoma Blvd, Oshkosh, WI 54901

Prehistoric Copper Mining Tools lecture by Dr. Don Spohn

We in the Great Lakes area can be exceptionally proud of our extraordinary contribution to world history! How old is copper mining in the Lake Superior area? What kind of tools did prehistoric American Indian miners use in mining copper? Where's all the anciently mined copper, today? Ask any question you can think of concerning ancient copper, during or after the lecture.

Bring your copper artifacts for others to see and for identification by Dr. Don Spohn
