

A stylized, colorful illustration of a rural landscape. At the top, a bright sun with rays is partially obscured by a blue cloud. The year '2014' is written in large blue letters above another blue cloud. Below the clouds, rolling hills in shades of green and yellow lead down to a blue river. The foreground shows a field with yellow and green stripes, suggesting crops or furrows. The overall style is clean and modern with a vibrant color palette.

---

**Welcome to New Orleans and the 92nd Annual  
Convention of the Louisiana Farm Bureau Federation.  
We're glad you're here and hope you enjoy your stay.**

---

Many of us come to New Orleans each year to do the work of our organization, your organization, but also to be with friends and family to savor all the flavors the Crescent City has to offer. Ours is a family convention and I hope you'll agree that with our youth events, Women's Leadership Committee and YF&R programs, as well our commodity conferences, our convention offers something for everyone.

For the last 92 years the Louisiana Farm Bureau Federation has stood by the state's farmers, ranchers and rural residents. Your membership in our organization is vital and we know our continued success depends on members like you. Grassroots involvement has made our organization what it is today and all that it will be in the future.

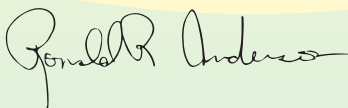

Many of you have been attending our convention for decades and on behalf of our entire organization I want to thank you for your involvement. Your commitment at the parish, state and national levels will ensure agriculture's success for years to come. If this is your first time here as a Women's Leadership Committee member, YF&R, voting delegate or commodity committee member, I want to thank you and urge your continued involvement in our organization. And if you're the proud parent of a local parish youth contest winner, I congratulate you. We're glad you and your family are here.

As we move through our four-day convention our voting delegates will work diligently to establish the policies that will guide our organization for the next 12 months. Our Young Farmers and Ranchers Committee will engage in contests and discussions that will continue to build a foundation for the future of young farmers across Louisiana. And our youth activities will foster and promote the spirit of competition among young people from parishes across the state.

This year marks some special milestones for our organization. We'll honor longtime Louisiana Farm Service Agency Director Willie Cooper with our Lifetime Achievement Award. Mr. Cooper retired in January as the longest serving FSA director in the country. He remains a true friend of Farm Bureau and is certainly deserving of this recognition.

We'll also bid farewell to Jackie Theriot, our Secretary-Treasurer for the last 20 years. While Jackie has served on our executive committee since 1995, his service to Louisiana agriculture and the state's sugar industry spans 50 years. Our organization, indeed all of Louisiana agriculture, is better because of Jackie's service. We congratulate him and his wife Sue on this occasion.

Again, welcome to New Orleans. Thanks to your leadership our organization will remain the "Voice of Louisiana Agriculture."

# TWILA

Follow us on our social media outlets to see behind the scenes coverage, updates on upcoming shows and more!

---

***“This Week in Louisiana Agriculture” is the only agricultural television program in Louisiana that brings farmers and consumers together every week.***

---

The TWILA Team takes our viewers to the farmer’s field and shows them the sacrifices and hardships farmers go through everyday to put food on our table and clothes on our back. Whether you’re dining in or eating out, you’ll always find something on TWILA to sink your teeth into.

***Visit [www.twilatv.org](http://www.twilatv.org) and see our complete convention coverage #lfbf14***

Check your local listings for show times or go online to [www.twilatv.org/showtimes](http://www.twilatv.org/showtimes).

# HEAVY LIFTING.

## DURAMAX AND ALLISON.<sup>®</sup> A PROVEN COMBINATION.

The new Heavy Duty is our strongest Silverado ever. That's because the combined power of the available Duramax and Allison deliver an impressive 397 hp and 765 lb-ft of torque. They also deliver the proven reliability of over one million of these combinations on the road today with over 100 billion miles of experience.

## KEEPING TRAILERS ON THE STRAIGHT AND NARROW.

Another must-have combination is power and control. With Tow/Haul mode, press a button and the transmission stays in gear longer, optimizing power when you need to accelerate. No buttons are required for Trailer Sway Control. It applies both the vehicle and trailer brakes (when properly equipped) to help get trailers back in

**AVAILABLE DURAMAX

line when needed.

## WINNING THE UPHILL

**BATTLE.** Another automatic feature you'll appreciate (especially when you've got a mountain of hay right behind you) is Hill Start Assist. To assist you in preventing rollback, it detects inclines of 5 percent or more

and momentarily holds the brakes—giving you time to switch from brake pedal to accelerator. For downhills, the available Diesel Exhaust Brake System uses Silverado's own exhaust to decelerate rather than add wear to conventional brakes.

Everything about the new Silverado HD is designed to work harder for you. Visit [chevy.com/silverado](http://chevy.com/silverado) and learn more about the most dependable, longest-lasting full-size pickups on the road.<sup>2</sup> Strong. For all the roads ahead.
