Entertaining & Interactive Tasting Activities
for guests booking accommodation at

New Themes for 2015

“Champagne Cocktails” – an exciting mix of Champagne tasting and cocktail making rolled into one!

“Cocktail Challenge” – a cocktail workshop and interactive cocktail making challenge combined!

“Tried and Tested” – for Rugby World Cup year, a special interactive team quiz with award winning wines and/or beers sourced from the competing nations!

“Microbeerfest” – a mini festival of some of the best brews from Britain’s microbreweries, including boutique beers of different styles, fast emerging craft lagers, and local products.

“Wines of the Americas” – a delicious comparison between quality wines from Chile, Argentina and the USA.

Here at Wine-Works we specialise in bringing our range of tasting activities to groups who have booked their stay at The Moretons Vacation Houses. Be it for holidays, weekends away, or any kind of break, we provide a fun and interactive session to make your stay even more memorable. We are very flexible, so space and weather permitting we can run the event in the lounge, dining room, kitchen or even outside, weather permitting! We are happy to run the event as a standalone activity, or in association with a meal, however you wish.

Any of our options below or new themes for 2015 can be chosen, and, with a little notice, we can tailor the event to any particular preference. Nothing excites us more than designing an event to your exact requirements, such as spoiling any special member of the group, or including a team quiz to add a competitive edge to proceedings!

We offer 8 handpicked wines (or 10 beers, 6 spirits, 5 cocktails as appropriate) as standard at our tastings, which typically run for about 2 - 3 hours, but we will happily adjust to the time available. Each activity comes with the guarantee of a fully qualified expert/entertainer to run the event and all glassware along with any other equipment required. A special range of non alcoholic drinks for non drinkers can be provided on request.
