

EXPERIENCE

OBSERVATORY DESIGN

Freelance Designer / 2015 / Providence, RI

Over summer break I worked as a member of the Providence studio. Given my experience in design I was quickly utilized for concept ideation and development. As a smaller studio I performed a variety of tasks from 3D modeling to fabrication.

INGO MAURER

Industrial Designer / 2013 - 2014 / Munich, GE

Working as a member of the design studio in Germany I contributed concepts and developed several products. My main project and accomplishment was to re-design a 'lost' product from the offering, replacing the discontinued bulbs with an innovative LED package.

HUMANSCALE

Industrial Designer II / 2009 - 2013 / New York City, NY

While at the company I was the only 'in-house' lighting designer and developed numerous projects. My responsibilities included concept ideation, form development, prototype fabrication and significant advanced 3d modeling.

PRODUCTS WITH PASSION

Freelance Lighting Designer / 2011 - 2012 / New York, NY

In conjunction with the company's electrical engineer I developed the form and 3d modeled several lighting products. Along with the aesthetic solutions I also aided in creating concept presentations to be shown to investors.

MMCKENNA

Industrial Designer / 2007 - 2009 / New York, NY

In my first position out of school I was part of a small team with many responsibilities. Some of my activities included PCB & prototype fabrication, 3d modeling, graphic design and even trade show booth installation.

SKILLS

DIGITAL

Autodesk Alias, Solidworks, Mastercam, Keyshot, Adobe Illustrator & Photoshop.

ANALOG

Metal & Wood Fabrication, Material Exploration, Concept Ideation, Rapid sketching.

EDUCATION

RHODE ISLAND SCHOOL OF DESIGN

2014 - Present / Providence, RI

M.F.A. in Furniture Design

LIGHTING RESEARCH CENTER

2011 / Rensselaer Polytechnic Institute, Troy, NY

LED Education Course

PHILADELPHIA UNIVERSITY

2002 - 2007 / Philadelphia, PA

B.S. in Industrial Design

EXHIBITIONS

ITERATIONS, Sol Koffler Graduate Student Gallery, Providence, RI 2015.
