## GARRISON BUILDING SOLUTIONS

Garrison Solutions, formerly Letterbox Installations, is an Australian owned and operated business which provides a wide range of quality products. Garrison Solutions specialize in modular mailbox units made from fully extruded aluminium. Manufacturing processes for the custom built range of mailboxes permits the dimensions of the mailbox to be altered (length, width, depth) to suit your specific project requirements.

Our mailboxes are ideal for a diverse range of projects, including apartments, office blocks, shopping centres, commercial buildings, and residential dwellings. Other applications of mailboxes are; valuables lockers, assignment boxes, document transfer boxes and pigeon holes.

New product ranges include: Clotheslines, safes, key lockers, security solutions and architectural hardware.

Garrison Solutions is committed to providing clients with a level of service and supply options that will exceed expectations. Garrison Solutions is a family business, whose parent company was established in 1927 and which has been dedicated to servicing architects and the building related industry for in excess of 80 years. In summary our maxim is...

**“Service is the constitution, quality is the character, perfection is the goal, and customer satisfaction is the result.”**

## MAILSAFE MAILBOXES

With decades of experience in the industry, Mailsafe Mailboxes is one of the few Quality Assured manufacturers of mailboxes and letterboxes in Australia. Mailsafe Mailboxes is a commercial division of Help Enterprises and has been producing a high quality range of aluminium and metal fabricated products since 1972. Specialising in fully extruded high quality aluminium modular mailbox units (banks) for townhouse and unit developments, retirement villages, shopping centres and commercial premises.

One of the enhanced features of Mailsafe Mailboxes is the flat floor, which means mail cannot catch on internal protrusions as it is being delivered, eliminating the risk of mail sticking out from the aperture slot after delivery. All of our mailboxes come with a straight 30mm Weatherhood. This offers a modern and stylish finish and doesn't restrict the receipt of large quantities of mail as with mailboxes that have curved Weatherhoods. All of our mailboxes are available in your choice of either front or rear opening designs. With a focus on customer service, Garrison Solutions together with Mailsafe Mailboxes offers clients a total solution.

When you are dealing with Garrison Solutions you are buying a quality Australian-made product and assisting us in supporting the independence of people with disabilities.

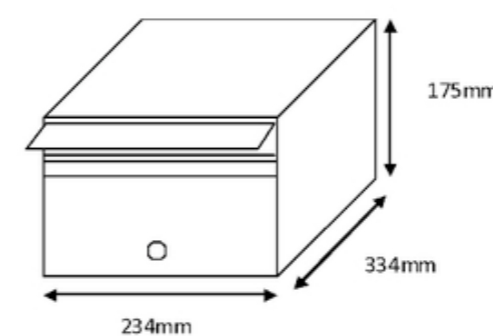

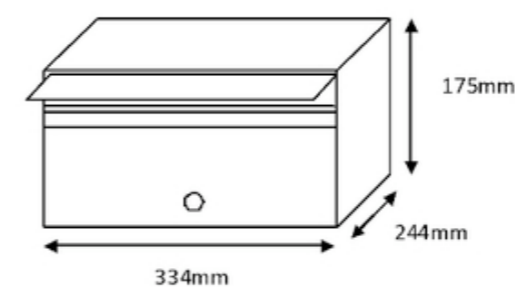

### MSF2/MSF3

Designed to reduce lead times and allow customers to have their mailbox on demand, the MSF range has revolutionised the mailbox industry.

MSF2 and MSF3 mailboxes are capable of receiving large quantities of mail, including A4 envelopes and magazines without folding. The MSF3 is especially suited to situations where width restrictions apply, as the box is narrower across the front and deeper.

Setting the MSF range apart from the competition is the special feature of a silicone sealant. This is added to all roof joints providing additional protection from the rain. An extra benefit is that all external rivets and screws are counter-sunk for a safer and neater look. The MSF range meets the design requirements of Australia Post.

Available in either front or rear opening designs.

#### Standard Features

- 30mm Aperture Slot - large enough to receive bulky mail though small enough to provide mail security
- 30mm Weatherhood provides mail security and weather protection
- Wide Range of Colours - offers flexibility to match your décor
- Double-Sided Keys - for better security and greater number of unique keys for multi-residential installations
- Substantial protective packaging ensures your mailbox arrives safe and sound, regardless of its destination

#### Optional Features

- Aperture Flaps
- Master Keys - ideal for Body Corporate and On-Site Managers
- Intercom/Multi-Functional Panels - ideal for co-ordinating security features with your entrance
- Number or Name Panels - ideal for large complexes and easy recognition
- 70mm x 70mm Aluminium Stands - ideal for freestanding banks of mailboxes
- Parcel or Open Shelves - ideal for residents expecting delivery of large parcels
- 20mm, 32mm, 50mm or 100mm Surround Trim - ideal for flush mounted installation into a wall
- Replacement Key and Strip Service
- Delivery of Mailboxes to Site
- On-Site Installation (Conditions Apply)
- Newspaper tubes – allows residents to neatly receive their newspapers
- Flat door with no engraved strip

PC AN A4 10 15

### APR2/APR3

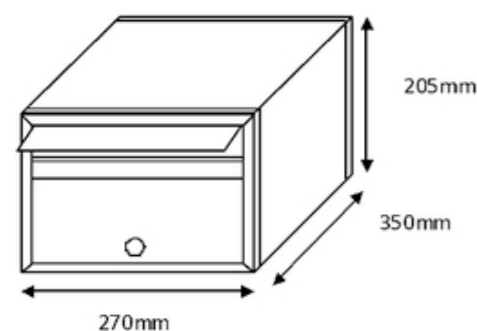

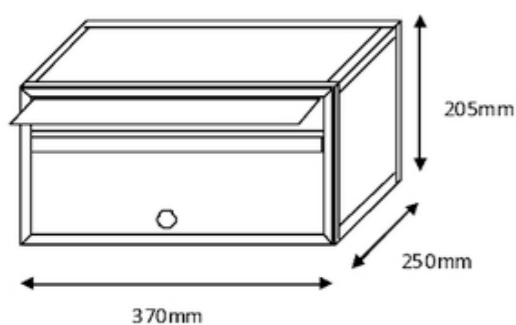

The APR2 and APR3 are Australia Post Recommended mailboxes.

These mailboxes can be manufactured as a standard sized mailbox, or as a custom built mailbox to suit design or dimensional requirements.

The flat-floored APR2 and APR3 are large enough to receive an A4 envelope or magazine without folding or accidental protrusion. The APR3 is especially suited to situations where width restrictions apply, as the box is narrower across the front and deeper.

All features of the MSF range are incorporated in these mailboxes. However, APR mailboxes are slightly larger than the MSF mailboxes and feature sturdy individual framework around each bank or single mailbox. This provides even greater mail security.

Available in either front or rear opening designs.

#### Standard Features

- 30mm Aperture Slot - large enough to receive bulky mail though small enough to provide mail security
- 30mm Weatherhood provides mail security and weather protection
- Wide Range of Colours - offers flexibility to match your décor
- Double-Sided Keys - for better security and greater number of unique keys for multi-residential installations
- Substantial protective packaging ensures your mailbox arrives safe and sound, regardless of its destination

#### Optional Features

- Aperture Flaps
- Master Keys - ideal for Body Corporate and On-Site Managers
- Intercom/Multi-Functional Panels - ideal for co-ordinating security features with your entrance
- Number or Name Panels - ideal for large complexes and easy recognition
- 70mm x 70mm Aluminium Stands - ideal for freestanding banks of mailboxes
- Parcel or Open Shelves - ideal for residents expecting delivery of large parcels
- 20mm, 32mm, 50mm or 100mm Surround Trim - ideal for flush mounted installation into a wall
- Replacement Key and Strip Service
- Delivery of Mailboxes to Site
- On-Site Installation (Conditions Apply)
- Newspaper boxes and tubes – allows residents to neatly receive their newspapers
- Flat door with no engraved strip
- Dimensions may be altered to suit your requirements

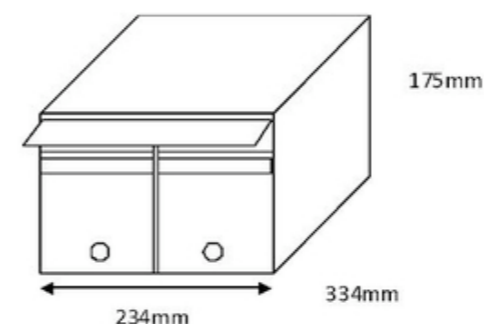

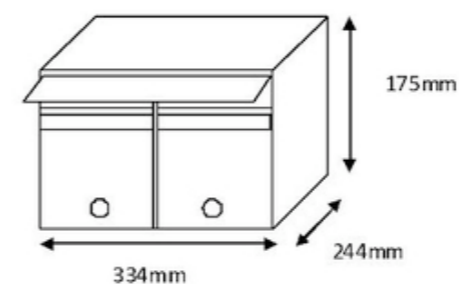

### MSF

Suitable for Resort Complexes and Hotel Style Accommodation where mail is delivered and then internally sorted.

This range can be manufactured for the use as pigeon holes which make sorting and retrieving mail neat and efficient.

The MSF Compact mailboxes are approximately half the width of the standard MSF3 mailbox, they are most suitable where large quantities are needed with a small amount room available.

Available in either front or rear opening designs.

#### Standard Features

- 30mm Aperture Slot - large enough to receive bulky mail though small enough to provide mail security
- 30mm Weatherhood provides mail security and weather protection
- Wide Range of Colours - offers flexibility to match your décor
- Double-Sided Keys - for better security and greater number of unique keys for multi-residential installations
- Substantial protective packaging ensures your mailbox arrives safe and sound, regardless of its destination

#### Optional Features

- Aperture Flaps
- Master Keys - ideal for Body Corporate and On-Site Managers
- Intercom/Multi-Functional Panels - ideal for co-ordinating security features with your entrance
- Number or Name Panels - ideal for large complexes and easy recognition
- 70mm x 70mm Aluminium Stands - ideal for freestanding banks of mailboxes
- Parcel or Open Shelves - ideal for residents expecting delivery of large parcels
- 20mm, 32mm, 50mm or 100mm Surround Trim - ideal for flush mounted installation into a wall
- Replacement Key and Strip Service
- Delivery of Mailboxes to Site
- On-Site Installation (Conditions Apply)
- Flat door with no engraved strip

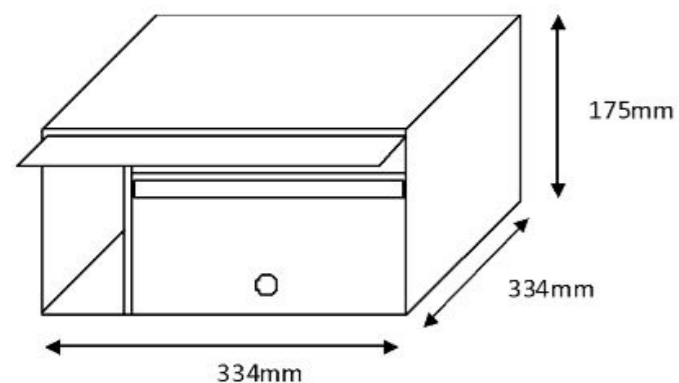

## MSF4

The MSF4 mailboxes are part of our standard MSF range but with an individual Newspaper Shelf to each mailbox for bulky items.

MSF4 mailboxes have been designed to hold more mail than the standard MSF2 and MSF3 mailboxes as each mailbox comes with its very own newspaper shelf. Using the width of an MSF2 Mailbox and the depth of an MSF3 mailbox, the box itself is still capable of holding an A4 envelope or magazine.

Setting the MSF range apart from the competition is the special feature of a silicone sealant. This is added to all roof joints providing additional protection from the rain. An extra benefit is that all external rivets and screws are counter-sunk for a safer and neater look. The MSF range meets the design requirements of Australia Post.

Available in either front or rear opening designs.

### Standard Features

- 30mm Aperture Slot - large enough to receive bulky mail though small enough to provide mail security
- 90mm Wide Newspaper Shelf to each individual mailbox
- 30mm Weatherhood provides mail security and weather protection
- Wide Range of Colours - offers flexibility to match your décor
- Double-Sided Keys - for better security and greater number of unique keys for multi-residential installations
- Substantial protective packaging ensures your mailbox arrives safe and sound, regardless of its destination

### Optional Features

- Aperture Flaps
- Master Keys - ideal for Body Corporate and On-Site Managers
- Intercom/Multi-Functional Panels - ideal for co-ordinating security features with your entrance
- Number or Name Panels - ideal for large complexes and easy recognition
- 70mm x 70mm Aluminium Stands - ideal for freestanding banks of mailboxes
- Parcel or Open Shelves - ideal for residents expecting delivery of large parcels
- 20mm, 32mm, 50mm or 100mm Surround Trim - ideal for flush mounted installation into a wall
- Replacement Key and Strip Service
- Delivery of Mailboxes to Site
- On-Site Installation (Conditions Apply)
- Flat door with no engraved strip

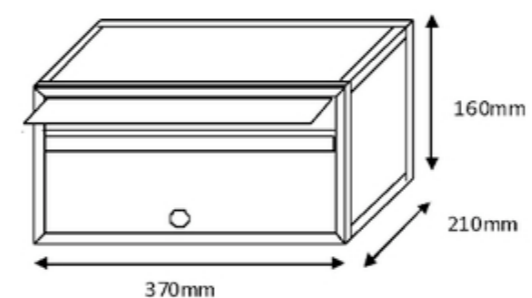

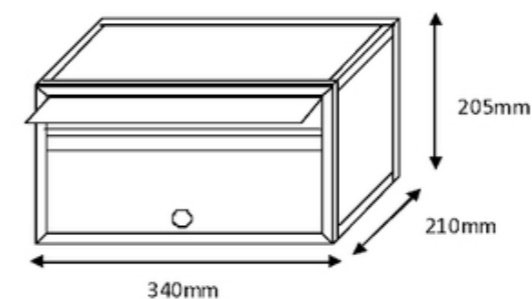

## SERIES 7/SERIES 7L

The Series 7 and Series 7L mailboxes are designed to fit 200mm block work installations, but are also available as freestanding units.

Series 7 mailboxes will adequately receive most residential mail but A4-sized envelopes will not fit without folding.

The Series 7L mailbox is marginally wider than the Series 7 allowing the A4 envelope to be inserted but it will not sit flat on the floor of the mailbox due to the restricted depth.

Available in either front or rear opening designs.

### Standard Features

- 30mm Aperture Slot - large enough to receive bulky mail though small enough to provide mail security
- 30mm Weatherhood provides mail security and weather protection
- Wide Range of Colours - offers flexibility to match your décor
- Double-Sided Keys - for better security and greater number of unique keys for multi-residential installations
- Substantial protective packaging ensures your mailbox arrives safe and sound, regardless of its destination

### Optional Features

- Ideal for Apartments, Units and Townhouses

## ALLUX BY GARRISON RANGE

Garrison's new range of mailboxes are designed to be both modern and functional. Each design incorporates a solid structure and exceptional attention to detail, resulting in a product of high quality that lasts. Every mailbox in our new range comes with a 12 year warranty, your choice of labeling and the choice of two stand styles.

## CLASSIC SERIES

### Classic LT

The Classic LT is a clean, sturdy unit that exudes an aesthetically pleasing, classic design. The Classic LT can be used as a single unit or combined into a bank. Available in black or white, galvanized or painted steel.

- 1mm galvanized or painted steel
- Spring loaded retrieval slot

### Classic XL

The Classic XL, the LT's big brother, follows on with the clean solid, classic design. The Classic XL can also be used as a single unit or combined into a bank. Available in black painted galvanized steel with stainless steel front door and slot.

- 1mm galvanized or painted steel
- Spring loaded retrieval slot

## FRONTIER SERIES

The Frontier mailbox incorporates a striking design at half the price, without sacrificing quality. Projection and overhang form the characteristic shape that also protects your mail from the elements. Available in galvanized painted steel in black, white, red, and stainless steel.

- 440mm (h) x 345mm (w) x 180mm (d)

## ECLIPSE SERIES

### Eclipse

The Eclipse is an elegant, high quality product with a striking appearance. Ideal for individual or banked setups. Eclipse features a two part interior, the rear section holds newspaper and catalogues, while the secure front compartment hold your important mail.

### Eclipse LX

The Eclipse LX features a similar design to the standard Eclipse, with harder edges and a modern design. There is room for both the post and large quantities of newspapers/advertising you receive. Constructed of

strong materials, perfect as a single unit or banked.

## GALAXY PARCEL SERIES

With more and more people shopping online there is always the issue of what happens to your parcel if you're not available to receive it. The Galaxy Parcel Mailbox solves this problem with its generous capacity and secure delivery system. Perfect as a standalone mailbox, or a companion to your existing mailbox, you will never miss an important delivery again.

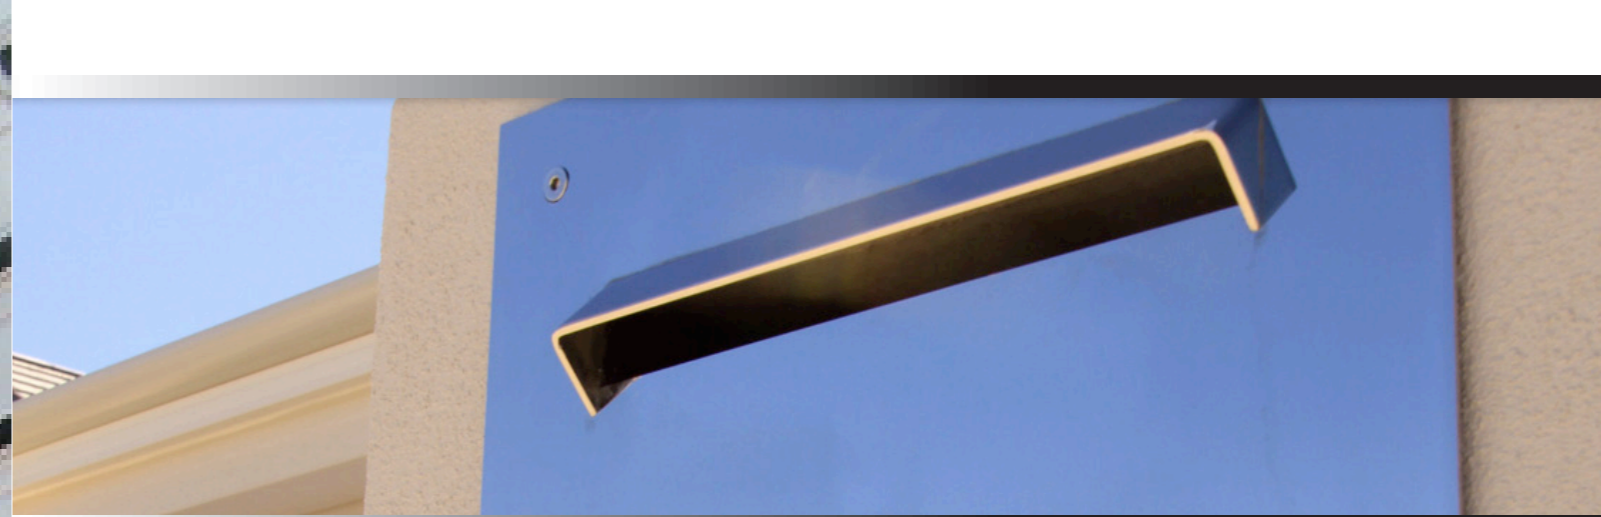

- Powdercoated steel available in black, grey, and white
- 1130mm (h) x 390mm (w) x 280mm (d)

## SPECIFICATIONS

## FAQ'S

### Lead Time

Individual mailboxes from the Mailsafe and Tyro range are generally held in stock at our office. For large quantities and mailbox banks we advise a lead time of approx. 10 - 15 days may be required, depending on the finish type and other specifics. Small items such as locks and freestanding mailbox legs are available from our office also.

### Installation

We offer a complete solution from purchase to delivery and installation (if required). All our products are available for on site installation within Perth and surrounding areas. Feel free to contact us regarding your install. One of Garrison Solutions installation teams will contact you to arrange an appropriate installation date and time. It may be required for the client to be on site, depending on the specifics of the job.

### Key Replacement

On each mailbox lock is a unique number, if you require a replacement key simply obtain this number and contact Prestige Lock Services on (08) 9524 5983. They will be more than happy to help you with the replacement.

### Are Garrison Solutions mailboxes Rust Free?

Yes, both anodize and powder coat protect the mailbox from rust.

## LOGO KEY

### What do the logos mean?

- PC Powder coated finish
