

## Online Figure A. Florida Obsessive-Compulsive Inventory

**General instructions:** The questions below are designed to identify some of the common symptoms of obsessive-compulsive disorder (OCD). Keep in mind that a high score on this questionnaire does not necessarily mean you have OCD. Only an evaluation by a health professional can make this determination. Answer these questions as accurately as you can.

**Part A instructions:** Please check YES or NO for the following questions, based on your experiences in the past month:
