

Stitches

We've been fabric blowing
where we will
strong but on our own
strong but on our own
Gathering wind for our own glory
free and unashamed
free and unashamed [TO VERSE 2]

With your hand
weave us together
Make us a mighty humble work
a mighty humble work
with your sore fingers make us one
garment
in love so that we may love
in love so that we may love

Garment Worker stitch us together
like you did the moon to the stars.
When I look at the heavens
I see the work of your fingers –
hold your Creation this union of ours.

Wrap us calm and strong together
around these lives
who brought us here
lives who brought us here
Around the world, around forever
and your children everywhere
your children everywhere

Give us life like the heavens
gravitational and deep
gravitational and deep
Give us stories like the constellations
beautiful and sharp
beautiful and sharp [to BRIDGE]

Bridge

Your work in us
is bigger than we see
that out of us.....
Might come the ones
to make silence of.....
Your enemies!
