

May 14, 2017

To CCCS Families:

My name is Sean Herr and I am running for School Board Member at Children's Community Charter School. I currently have two children in attendance here at CCCS, and given the changes that have occurred in the recent months I have decided to take a more active role in their future. While I have been involved in many of the school's activities since we came to the school in 2012, this will be my largest commitment to date. I am excited about the opportunities the school currently has and would be honored to assist it in realizing these opportunities. My children Tru and Liam enjoy going to our school very much and I would like to ensure they retain this ability through graduation of 8th grade.

I like to pride myself on the ability to look at a given situation and make the best choice with the facts on hand. I enjoy finding solutions to problems and observing the results. I will use these skills to continue to make CCCS the best school possible for everyone. I look forward to working with the other members and parents to ensure that CCCS will be the best for our children and those to follow.

Thank you,

*Sean Herr*
